Fortifications Of The Incas:

Fortifications of the Incas H. W. Kaufmann, J.E. Kaufmann, 2012-06-20 The greatest period of Inca expansion occurred during the reigns of Pachacuti 1438 71 Tupa Inca 1471 93 and Huayna Capac 1493 1527 From the mountain stronghold of Cuzco they subjugated the surrounding kingdoms and territories absorbing their civilizations and their peoples By 1525 they dominated much of the west of the continent relying on fortified strongholds an extensive system of roads and bridges and obligatory military service to control local populations This illustrated volume takes a detailed look at the development of Incan fortification techniques and examines how they came to be overrun by the Spanish conquistadors

How the Incas Built Their Heartland R. Alan Covey, 2025-10-13 Inca archaeology has traditionally been intimately tied to the study of the Spanish chronicles but archaeologists are often asked to explain how Inca civilization relates to earlier states and empires in the Andean highlands a time period with little coinciding documentary record Until recently few archaeologists working in and around the Inca heartland conducted archaeological research into the period between AD 1000 and AD 1400 leaving a great divide between pre Inca archaeology and Inca studies In How the Incas Built Their Heartland R Alan Covey supplements an archaeological approach with the tools of a historian forming an interdisciplinary study of how the Incas became sufficiently powerful to embark on an unprecedented campaign of territorial expansion and how such developments related to earlier patterns of Andean statecraft In roughly a hundred years of military campaigns Inca dominion spread like wildfire across the Andes a process traditionally thought to have been set in motion by a single charismatic ruler Pachacuti Inca Yupanqui Taking nearly a century of archaeological research in the region around the Inca capital as his point of departure Covey offers an alternative description of Inca society in the centuries leading up to imperial expansion To do so Covey proposes a new reading of the Spanish chronicles one that focuses on processes rather than singular events occurring throughout the region surrounding Cusco the Inca capital His focus on long term regional changes rather than heroic actions of Inca kings allows the historical and archaeological evidence to be placed on equal interpretive footing The result is a narrative of Inca political origins linking Inca statecraft to traditions of Andean power structures long term ecological changes and internal social transformations By reading the Inca histories in a compatible way Covey shows that it is possible to construct a unified theory of how the Inca heartland was transformed after AD 1000

Viet Cong and NVA Tunnels and Fortifications of the Vietnam War Gordon L. Rottman, 2012-09-20 During the Vietnam War the Viet Cong VC main forces and North Vietnamese Army NVA were forced to hide weapons and supplies underground and to dig protective shelters to counter massive US firepower Their field works defended villages hidden base camps and fortified complexes and took the form of trench systems individual fighting positions crew served weapon positions bunkers caches and extensive tunnel complexes Camouflage and deceptive measures and the employment of obstacles and booby traps went hand in hand with such works This illustrated guide takes a detailed look at the VC NVA tunnel systems field fortifications base camps and

camouflage and concealment measures employed during the Vietnam conflict

The Oxford Handbook of the Incas

Sonia Alconini, R. Alan Covey, 2018-04-02 When Spaniards invaded their realm in 1532 the Incas ruled the largest empire of the pre Columbian Americas Just over a century earlier military campaigns began to extend power across a broad swath of the Andean region bringing local societies into new relationships with colonists and officials who represented the Inca state With Cuzco as its capital the Inca empire encompassed a multitude of peoples of diverse geographic origins and cultural traditions dwelling in the outlying provinces and frontier regions Bringing together an international group of well established scholars and emerging researchers this handbook is dedicated to revealing the origins of this empire as well as its evolution and aftermath Chapters break new ground using innovative multidisciplinary research from the areas of archaeology ethnohistory and art history The scope of this handbook is comprehensive It places the century of Inca imperial expansion within a broader historical and archaeological context and then turns from Inca origins to the imperial political economy and institutions that facilitated expansion Provincial and frontier case studies explore the negotiation and implementation of state policies and institutions and their effects on the communities and individuals that made up the bulk of the population Several chapters describe religious power in the Andes as well as the special statuses that staffed the state religion maintained records served royal households and produced fine craft goods to support state activities The Incas did not disappear in 1532 and the volume continues into the Colonial and later periods exploring not only the effects of the Spanish conquest on the lives of the indigenous populations but also the cultural continuities and discontinuities Moving into the present the volume ends with an overview of the ways in which the image of the Inca and the pre Columbian past is memorialized and reinterpreted by contemporary Andeans

Israeli Fortifications of the October War 1973

Simon Dunstan, 2012-09-20 The Bar Lev Line along the Suez Canal was born out of the overwhelming victory of the Israel Defence Forces IDF in the Six Day War of 1967 Devastated by their defeat the Egyptian army bombarded Israeli positions causing many casualties Accordingly the IDF Chief of Staff General Haim Bar Lev ordered the construction of a series of fortified positions named the Bar Lev Line Each position was surrounded by barbed wire and minefields and virtually immune to strikes by artillery shells and even 500kg bombs On 6 October 1973 Yom Kippur the positions were manned by just 436 reservists when the Egyptian Second and Third Armies launched a massive offensive along the Suez Canal The positions were quickly cut off from the supporting elements and the Israeli defenders paid a high price with a casualty rate of almost 50 per cent Despite these losses it was not the Bar Lev Line that failed but Israel's military and political establishment which realised Arab intentions too late

Charles Stephenson,2012-11-20 The Island of Malta occupies a pivotal position in the Mediterranean forming an outpost between North Africa and the soft underbelly of Europe Such has been its strategic importance throughout the years that it has become one of the most fortified places in the world Following the successful defence of the island during the Great Siege of 1565 the Knights Hospitaller built new walls and fortifications

These defences failed when Napoleon occupied Malta in 1798 and the island was retaken by the British in 1800 From this point onwards Malta s defences were modernised throughout the 19th century and the island s final test came during World War II This book examines all these different styles of fortification from the 16th to the 20th century
