Anticommunism in French Society and Politics, 1945-1953 Aaron Clift, 2023-06-20 Anticommunism in French Society and Politics 1945 1953 evaluates the prevalence of anticommunism among the French population in 1945 to 1953 and examines its causes character and consequences through a series of case studies on different segments of French society These include the scouting movement family organisations agricultural associations middle class groups and trade unions and other working class organisations Aaron Clift contends that anticommunism was more widespread and deeply rooted than previously believed and had a substantial impact on national politics and on these social groups and organisations Furthermore he argues that the study of anticommunism allows us a deeper understanding of the values they regarded as the most important to defend Although anticommunism was a diverse phenomenon this work identifies common discourses including portrayals of communism as a threat to the nation the colonial empire the traditional family private property religion the rural world and Western civilisation It also highlights common aims such as the rehabilitation of wartime collaborators and tactics such as the invocation of apoliticism While acknowledging the importance of the Cold War it rejects the assumption that anticommunism was an American import or foreign to French society and demonstrates links between anticommunism and anti Americanism It concludes that anticommunism drew its strength from the connection or even conflation of communism with perceived negative social changes that were seen to threaten traditional French civilisation interacting with the postwar international and domestic environment and the personal experiences of individual anticommunists Le communisme et les intellectuels français David Caute, 1967 French translation of the English language study entitled Communism and the French intellectuals of activities of the communist political party in France during the period from 1914 to 1966 covers nationalist ideology racial discrimination against Jews colonial policy cultural factors accession to independence philosophy and social theory social movement the role of USSR etc References

the period under study Focusing attention on a largely ignored chapter of European cultural history this volume challenges historical assumptions by demonstrating processes of cultural cross fertilization and illuminates the precedents Russians set for political exiles in the twentieth century A remarkable achievement in scholarship Russian migr s in the Intellectual and Literary Life of Inter War France is a valuable resource for admirers and researchers of French and Russian culture and European intellectual history Le Principe communiste libertaire Organisation révolutionnaire anarchiste (France),1985
