bewildered hero Arthur Dent were finally adapted for radio by Dirk Maggs in part using drafts written by Douglas Adams before his death. The resulting fourteen completely new episodes were produced by Above the Title Productions and broadcast on BBC Radio 4 with nearly all of the original cast reunited for recording. These scripts brilliantly bring to life the last three books in Adams' perennially popular Hitchhiker series: *Life the Universe and Everything*, *So Long and Thanks for All the Fish*, and *Mostly Harmless*. Dirk Maggs supplies notes which highlight original Adams material and explain how the cast, special effects and music were directed. The scripts are introduced by Simon Jones who played Arthur Dent in both the original and the recent radio series as well as in *The Hitchhiker's Guide to the Galaxy* television series. Douglas Adams first conceived *The Hitchhiker's Guide to the Galaxy* for radio and it is an honour to his memory that all five Hitchhiker novels have now been adapted for this medium. These scripts exemplify the freshness of perspective, humour and perspicacity that epitomize the work of Douglas Adams. They will be loved by fans and those new to Hitchhiker's alike.

Revisiting

Imaginary Worlds Mark Wolf, 2016-12-08. The concept of world and the practice of world creation have been with us since antiquity but they are now achieving unequalled prominence. In this timely anthology of subcreation studies, an international roster of contributors come together to examine the rise and structure of worlds, the practice of world building and the audience's reception of imaginary worlds. Including essays written by world builders A.K. Dewdney and Alex McDowell and offering critical analyses of popular worlds such as those of *Oz*, *The Lord of the Rings*, *Star Trek*, *Star Wars*, *Battlestar Galactica* and *Minecraft*, *Revisiting Imaginary Worlds* provides readers with a broad and interdisciplinary overview of the issues and concepts involved in imaginary worlds across media platforms.

The Frodo Jem Roberts, 2014-09-25. As a wise ape once observed, space is big, vastly, hugely, mind-bogglingly so. However, if you look too closely at space, it becomes nothing but lumps of rock and sundry gases. Sometimes it's necessary to take a step back and let a few billion years go by before any of the true wonder and scope of the cosmos becomes apparent. Similarly, the late 20th-century author, humorist and thinker Douglas Adams was big, vastly, hugely, and thoroughly mind-bogglingly so, both in physical terms and as a writer who has touched millions of readers, firing up millions of cerebellums all over planet Earth for over 35 years and for nearly half of that time he hasn't even been alive. It would be ridiculous to pretend that Douglas Adams's life and work has gone unexamined since his dismayingly early death at 49, but throughout the decade since the last book to tackle the subject, the universes Adams created have continued to develop, to beguile and expand minds, and will undoubtedly do so for generations to come. An all-new approach to the most celebrated creation of Douglas Adams is therefore most welcome, and *The Frodo* tells the story of Adams's explosive but agonizingly constructed fictional universe from his initial inspirations to the posthumous sequels and adaptations, bringing together a thousand tales of life as part of the British Comedy movements of the late 70s and 80s along the way. With the benefit of hindsight and much time passed, friends and colleagues have been interviewed for a fresh take on the man and his works.

This title can refer to any of the various incarnations of the story, of which the books having been translated into more than 30 languages by 2005. Although the various versions follow the same basic plot, they are in many places mutually contradictory, as Adams rewrote the story substantially for each new adaptation. In all versions, the series follows the adventures of Arthur Dent, a hapless Englishman who escapes the demolition of Earth by a bureaucratic alien race called the Vogons, with his friend Ford Prefect, an alien from a small planet somewhere in the vicinity of Betelgeuse and researcher for the eponymous guidebook *Zaphod Beeblebrox*. Ford's semi-cousin and part-time Galactic President unknowingly saves the pair from certain death. He brings them aboard his stolen spaceship, the *Heart of Gold*, whose crew rounds out the main cast of characters: Marvin the Paranoid Android, a severely depressed robot; and Trillian, formerly known as Tricia McMillan, a woman Arthur once met at a party who he soon realises is the only other survivor of Earth's destruction. After this, the characters embark on a quest to find the legendary planet of Magrathea and the Question to the Ultimate Answer.
