 Galilei,Maurice A. Finocchiaro,1997-05-25 This is a very creative piece of work which merits the highest praise It should be
 of great value for students and for the general reader I Bernard Cohen author of Guide to Newton's Principia Finocchiaro has
 done a superb job of presenting Galileo to the modern reader The Dialogue is a work of extreme difficulty requiring a
 compendious introduction careful selection translation and analysis of texts and thoughtful evaluation of its impact on
 Western culture With his well known logical ability and a feel for pedagogy rare among scholars Finocchiaro meets these
 demands in an exceptional way His is a classic introduction to Galileo's masterpiece William A Wallace author of Galileo's
 Logic of Discovery and Proof I recommend Galileo on the World Systems for any course on Galileo The introduction does a
 fine job of situating the book in the intellectual climate of the time and the notes make Galileo's prose and arguments
 thoroughly accessible Albert Van Helden translator of Galileo's Sidereus Nuncius
