Government Paper Waec 2014 2015:

Daily Graphic Ransford Tetteh,2014-09-10 **Identification Revolution** Alan Gelb,Anna Diofasi Metz,2018-01-16

Some 600 million children worldwide do not legally exist Without verifiable identification they and unregistered adults could face serious difficulties in proving their identity whether to open a bank account purchase a SIM card or cast a vote Lack of identification is a barrier to full economic and social inclusion Recent advances in the reach and technological sophistication of identification systems have been nothing less than revolutionary Since 2000 over 60 developing countries have established national ID programs Digital technology particularly biometrics such as fingerprints and iris scans has dramatically expanded the capabilities of these programs Individuals can now be uniquely identified and reliably authenticated against their claimed identities By enabling governments to work more effectively and transparently identification is becoming a tool for accelerating development progress Not only is provision of legal identity for all a target under the Sustainable Development Goals but this book shows how it is also central to achieving numerous other SDG targets Yet challenges remain Identification systems can fail to include the poor leaving them still unable to exercise their rights access essential services or fully participate in political and economic life The possible erosion of privacy and the misuse of personal data especially in countries that lack data privacy laws or the capacity to enforce them is another challenge Yet another is ensuring that investments in identification systems deliver a development payoff There are all too many examples where large expenditures sometimes supported by donor governments or agencies appear to have had little impact Identification Revolution Can Digital ID be Harnessed for Development offers a balanced perspective on this new area covering both the benefits and the risks of the identification revolution as well as pinpointing opportunities to mitigate those risks Conference Proceedings. The Future of Education Pixel,2015-07-01 The Political Economy of Underdevelopment in Sub-Saharan Africa Christopher E.S. Warburton,2024-10-14 This book provides a unique combination of history politics and economics to rationalize the progression of underdevelopment in Sierra Leone and the challenges of economic growth and development confronting some Sub Saharan African countries It concisely presents the internal frictions that are most responsible for the underdevelopment of Sierra Leonean since 1961 while also benchmarking the performance of the country with some countries in the subregion Europe the US Latin America and Asia It highlights the external threats that are highly capable of stifling the economic growth and sustainable development of the country including sovereign debt the paucity of human capital the use of natural resources and external shocks The central concepts of analysis include the premise for underdevelopment contexts for business strategies and rivalry in an underdeveloped economy economic growth productivity sustainable development international trade and threats to macroeconomic stability in the form of volatile commodity prices loss of competitiveness inaccessible foreign markets deficient healthcare infrastructure the cost of unsustainable sovereign debt and the viability of long term investments The book has been intentionally developed for all those who are strongly interested in the political

economy of Sub Saharan Africa with particular emphasis on Sierra Leone empirical work on economic growth and development academic instruction on international political economy international organizations and policymakers

WAEC in Review Benjamin Freeman Jr.,2014-11-07 WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable strive towards the proper preparation of Liberian students for future diets of the WAEC exam As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations WASSCE I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam David S Massaquoi Sr director of Education The Salvation Army Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors They know nothing about the exam and its structure and this fear lead to them failing massively We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam Thanks to LIPACE and the Turning the Tide project we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam Lartey Bemah principal of Bopolu Public School 2012 2013 Gbarpolu County Liberia

The Battle of the Fields Brian Short,2014 This book will appeal not only to historians and geographers but to many who maintain a deep interest in the British countryside and its past and to those who continue to share a fascination for the Second World War in particular the home front The Battle of the Fields tells the story of rural community and authority in Britain during the Second World War by looking at the County War Agricultural Executive Committees From 1939 they were imbued with powers to transform British farming to combat the loss of food imports caused by German naval activity and initial European mainland successes Their powers were sweeping and draconian When fully exercised against recalcitrant farmers dispossession in part or whole could and did result This book includes the most detailed analysis of these dispossessions including the tragic case of Ray Walden the Hampshire farmer who was killed by police after refusing to leave hisfarmhouse in 1940 The committees were deemed successful by Whitehall as harbingers of modernity mechanization draining artificial fertilizers reclamation of heaths marshes and woodlands We now deplore some of

these changes but Britain did not starve in large part thanks to their efforts This book will appeal not only to historians and geographers but to many who maintain a deep interest in the British countryside and its past and to those who continue to share a fascination for the Second World War in particular the home front It will also demonstrate to all who are anxious about food security in the modern age how this question was dealt with 70 years ago BRIAN SHORT is Emeritus Professor of Historical Geography at the University of Sussex and formerly Dean of School and Head of the Department of Geography
