The uni-pivot support system with all unchanging and reproducing conditions at any position of the arm.

This is incorporated with a high purity silicon oil damping system, which eliminates any sway or movement incompatible to true sound reproduction, and results in a strong howling-free characteristic type arm.

A new robust light weight headshell specially designed is used on this G-900 series, and is designated HS-5. The lock system and gold contacts for noise free connection.

For reproduction of CD-4 stereo records, a newly developed low capacity shielded cord (PC-4) is supplied with the arm. The use of this new cord will enhance reproduction of other types of records as well.
