State Assessment Policy and Practice for English Language Learners Charlene Rivera, Eric Collum, 2014-05-12
State Assessment Policy and Practice for English Language Learners presents three significant studies each examining a different aspect of states strategies for including English language learners in state assessments an Analysis of State Assessment Policies Regarding Accommodations for English Language Learners a Survey and Description of Test Translation Practices and an Examination of State Practices for Reporting Participation and Performance of English Language Learners in State Assessments With the rise in population of English language learners and the subsequent stepped up legislative focus on this student population over the past decade states have been challenged to include English language learners in state assessment programs Until now the little data available on states policies and practices for meeting this challenge has been embedded in various reports and professional journals and scattered across the Internet This volume offers for the first time a focused examination of states assessment policies and practices regarding English language learners The three studies were supported by OELA the U S Department of Education s Office of English Language Acquisition Language Enhancement and Academic Achievement for Limited English Proficient Students State Assessment Policy and Practice for English Language Learners is of interest to researchers and professionals involved with the assessment of English language learners state and district level policy makers and academics teacher educators and graduate students in a number of fields including educational and psychological assessment testing and measurement bilingual education English as a second language and second language acquisition

Educational Equity and Accountability Linda Skrla, James Joseph Scheurich, 2004-02-02 Despite the intense political attention that has been focused on accountability on standardized testing and on the equity effects of both accountability and testing the great majority of recent debate in education policy circles has failed to attend to either the dynamism or complexity of these issues and has instead been carried out in a dualistic good versus evil fashion In contrast the scholarship collected in this important new volume is designed to move beyond the prevailing dualism and to push the discourse about accountability testing and educational equity in public schools usefully forward and to provide a much needed resource for researchers policy makers and practitioners

Science Assessment in the Service of Reform Gerald Kulm, Shirley M. Malcom, 1991 Students in America don t measure up in science and mathematics a problem especially critical in a society which is becoming increasingly technology based This authoritative examination of the problem presents useful material to make assessment a tool for the meaningful reform of school science It also provides some basic guidelines for whatever system of assessment is used

Teacher Evaluation and Professional Learning Mary Lynne Derrington, Jim Brandon, 2019-05-15 This book discusses teacher evaluation and how it can provide the foundations for professional development The editors and contributors illustrate how teachers with varying levels of expertise experience and learning needs can benefit from differentiated evaluation and professional development designed to help them reach their full potential The book examines various aspects of differentiation including levels of experience from pre service to veteran practices of school principals as they supervise and evaluate staff and wider education policies that can support or hinder differentiation Providing fascinating insights into how teacher evaluation policies can support practice in a variety of contexts this timely collection will be of interest and value to students and scholars of teacher evaluation and professional development *Ranking America's Fifty States* Michael D. Dulberger, 2013-09-18 This full color book provides a compendium of stimulating facts about the states presented graphically and covering a wide array of topics including demographic economic environmental health and crime variables Hundreds of attributes are compared side by side from life expectancy to murder rates from fourth grade math proficiency scores to the number of food stamp recipients and from illicit drug use to the rate of firearm background checks per state Through meticulous organization and use of graphic formats retrieval of specific information the reader may seek has been greatly facilitated In addition to the graphs comparing the fifty states for each individual metric a summary table is provided at the beginning of each chapter along with highlights of pertinent data found in the chapter While we are one indivisible nation at the same time Americans are as diverse from state to state as many nations are when compared with other nations For example in 2010 95 percent of Vermont residents were white compared with only 24 percent of residents in Hawaii and 1 in 12 New York residents were Jewish compared with less than 1 in 1 000 Arkansas residents In Texas 464 prisoners have been executed over the past 35 years while 16 states have not executed any More interesting facts found in ranking America's Fifty States include Alaska ranked highest or lowest in 31 metrics more than any other state followed by Mississippi at 25

and Texas at 20 Alaska is the only state that does not have a state income tax or a state sales tax It had the highest revenues per capita from taxes levied on businesses for the extraction of oil and gas and receives the highest federal aid per capita Alaska had the lowest percent of households with annual income below 15 000 Over the past decade over 100 million firearms background checks have been performed nationally with the highest rate in Utah and the lowest rate in New Jersey Mississippi had the lowest personal income per capita median household income gross domestic product per capita and lowest male life expectancy rate Additionally it had the highest food stamp recipient rate rate of persons below the poverty level and infant mortality rate Florida had the highest rate of identity theft victims in 2010 followed by Arizona California and Georgia Texas had the most extreme environmental metrics including the highest major disaster storm and wildfire emergency declarations Texas also had the highest summer air temperature and carbon dioxide emissions level In addition to extreme environmental metrics Texas also had the highest property crime rate and high school dropout rate

Portin, Lynn G. Beck, Michael Knapp, Joseph Murphy, 2003-02-28 The primary purpose of this study is to learn from the experiences of schools across the U S that are engaged in a largely process oriented reform strategy Schools vary in their capacity for productive self reflection The authors examine the process of self assessment that many schools engaged in during this time of widespread public attention to the equality of schools The schools examined in these cases reveal a complex interaction between the nature of the self reflective activity the schools were engaged in in this case a National Education Association school review process entitled KEYS to Success in Schools the contexts that shape the school and the readiness on the part of school staff to engage in systematic reflection around issues that affect teaching and learning The act of self reflection in schools may not provide by itself a source of new ideas alternative models and a sense of what might be possible for the school to accomplish Some external agent can often provide the impetus for or constrain the actions of school staffs in examining their programs and capacity for renewal The acts and outcomes of self reflection are inevitably guided and or constrained by various contexts including the school s history culture structure and supports and pressures provided from communities districts and states **Texas Register** Texas.
