The studies presented in this volume consider the different contexts of language learning and examine different types of participants in this process. Most of them look at a formal instruction context while others look beyond the classroom and even report on the author's own affectivity and its involvement in learning experiences. Affectivity is discussed here in relation to learners but also to teachers in their own professional contexts of teaching foreign languages. In the majority of cases, affectivity is explored in the case of bilinguals but there are also articles which focus on multilingual language users and their affectivity as an evolving factor.

Sex and the American Teenager R. Murray Thomas, 2009-07-23 Sex and the American Teenager provides an expert's assessment of the controversies surrounding the sexual development of adolescents and their beliefs and problems regarding such matters. Using numerous case studies, Dr. Thomas illustrates specific ways that sexual issues arise in school and the variables that impact each case while suggesting ways parents and school officials can deal with problematic situations. Though not simply statistics laden, Dr. Thomas's book is replete with information about teenagers who engage in sexual acts, become pregnant, are sexually abused, and contract sexually transmitted diseases. Dr. Thomas also discusses the coping methods teenagers use and he describes the types of sex education programs in which students are most likely to participate. Dozens of case studies illustrate how problems of students' sexual behavior can differ from one incident to another depending on the teenagers' ages, family backgrounds, school settings, and the culture of the surrounding communities. Thomas concludes the book by summarizing the recent past and speculating about the likely status of sex in schools in the years ahead.
