This section deeply studies the influence of open access so that authors can better develop books around it. Many students work years on their theses and getting them published can greatly aid their academic careers. It is not simply editing; this means changing the format to suit for wider academic publication and conforming to the expectations of the publisher. This book is a road map for authors making this transition. For authors in emerging or interdisciplinary fields, publishing can bring unique challenges. There may not be established publishing pathways in these fields or the intended audience may be smaller and more specialized. Despite these challenges, there are great rewards to publishing in such fields, and this book outlines strategies to achieve their success. Authors will discover how to seek the ideal publisher, determine their target market, and how to frame their work to have a noteworthy effect in their area. Technological advancements, global trends, and academic expectations have all combined to shape the future of academic book publishing. By the end of this book, readers will be equipped with a fundamental understanding of the academic publishing process. From preparing manuscripts and working with publishers to navigating new models of publishing, this guide arms authors with practical advice and strategies to ensure their research becomes a published book. It is our goal that this book helps those who hope to disseminate their research through publication of scholarly books.
