**Making Schools Work** Kathy Hirsh-Pasek, Roberta Michnick Golinkoff, Kimberly Nesbitt, Carol Lautenbach, Elias Blinkoff, Ginger Fifer, 2022. If we teach in the way that human brains learn, both students and their teachers will thrive. This book aligns evidence from the learning sciences on how and what students need to learn with classroom practice, pre-K-12. It demonstrates with hands-on examples how a change in educational mindset rather than in curriculum can improve student outcomes on both standardized tests and a breadth of 21st-century skills. Written collectively by classroom teachers, administrators, parents, and learning scientists, this book shows readers how to co-construct and reimagine an optimal educational system. *Making Schools Work* offers three case studies of schools, including a statewide system, that are all realizing a 6-Cs approach to learning focused on collaboration, communication, content, critical thinking, creative innovation, and confidence. The text documents the ever-evolving implementation process as well as outcomes and the ongoing work of stakeholders. Readers can use this resource to create an education for all children that is culturally responsive, inclusive, effective, and fun.

**Book Features:**

- Helps educators teach in the way that human minds learn.
- Jointly written in accessible language by teachers, administrators, parents, and learning scientists.
- Offers hands-on ways to reimagine classrooms without investing in new curricula.
- Puts teachers in the driver's seat, reminding them of why they teach.
- Provides culturally responsive, inclusive, effective, and fun strategies.
- Offers children the possibility of learning the skills they will need for 21st-century skills success.

Most of us agree that it is critical at this moment in time to reimagine what school could be. This reimagination must be informed by the best available science and built on current educational wisdom found in our schools. This book does just that and makes clear that more playful learning across the K-12 school system would be the most natural way to help all students learn the 21st-century knowledge and skills they need in life.

From the Foreword by Pasi Sahlberg, author of *Finnish Lessons 3.0: What Can the World Learn from Educational Change in Finland* and professor of education, Southern Cross University, Lismore, Australia.

**The School Librarian's Technology Playbook** Stacy Brown, 2020-02-06. Using concrete examples, *The School Librarian's Technology Playbook* offers strategies for school librarians to initiate and support innovative practices throughout their school community. The role of school librarians has evolved; no longer do they primarily support teachers with reading and literacy resources. Many librarians now support teachers in integrating technology tools and innovative teaching practices in their classrooms. At her school, author and learning coordinator Stacy Brown has pioneered the transition to innovation and technology use in the classroom. In *The School Librarian's Technology Playbook*, she showcases different technology tools and innovative strategies that can be incorporated into the classroom, such as 3D printing, augmented reality, green screen applications, gamification, coding, makerEd, and more. She details the many ways in which school librarians can support

teachers as they implement these new practices into their curriculum School librarians will learn how to collaborate with teachers and how to empower them to step outside of their comfort zones to try new tools and teaching methods Readers of this book will also learn how to support teachers as the technology continues to change in this dynamic educational landscape
