poem written in 2011

If I must die,  
you must live  
to tell my story  
to sell my things  
to buy a piece of cloth  
and some strings,  
(make it white with a long tail)  
so that a child, somewhere in Gaza  
while looking heaven in the eye  
awaiting his dad who left in a blaze—  
and bid no one farewell  
not even to his flesh  
not even to himself—  
sees the kite, my kite you made, flying up  
above  
and thinks for a moment an angel is there  
bringing back love  
If I must die  
let it bring hope  
let it be a tale

**How to Od... and Live to Tell About It** William Becker, 2002-09-12 Organization Development or OD as it is often referred to is something of a sexy field that is part of the family of the Human Resource discipline including training coaching mentoring business strategy change management etc The Title When being trained as an OD Practitioner at such institutes as National Training Laboratories NTL and some universities one may hear the analogy that people fear change because it can mean the end of something with which we are familiar Thus the concept of death loss of job status position group esteem etc is part of the psychology noted in ones education in the field to help practitioners understand others angst over taking risks accompanying change The title is therefore an obvious pun on Overdose OD and living to tell about it relates to how to avoid unneeded risk for the practitioner and the client Benefits of the Book The book is useful because it Is a new and unique perspective on OD Is theoretically substantive and not academic Provides practical actions and tools Invites various approaches to OD Is humorous wry for a serious subject Integrates theory with practice Balances client and consultant relationships with business and organizational goals Demonstrates key points with short cases Gives the reader the whole loaf Reviewers Comments Its not easy for someone with such a wealth of experience to distill it into a short tome Bill has done his work and our profession a great service Nadine Pearce Sr Manager of OD Nabisco Bill Beckers new book provides a practical and intelligent guide for those who want to help organizations become better at doing what they are trying to do Nancy Brown Consultant to Organizations An excellent book Its really good stuff Bills approaches to various topics and ways of describing them are really useful The books organization is also superb Donna Deeprose Author Speaker Trainer The book validates a lot of what I do and I definitely learned some things about organization structure and conceptual operational how tos It sparks my creative juices and is a catalyst for new ahas relative to consulting models theories and concepts that OD practitioners may not have access to in one book Karen Massoni OD Consultant and Professor of Organizational Dynamics at The New School This book has something to add to the practice of OD especially since it pulls so many theoretical strands together socio technical systems chaos theory expectancy valence theory large group change specific future search processes

and situational leadership Victor Rhodd OD and Employee Development Consultant New York Power Authority It reads like a combination diary and practitioners tool kit by weaving in and out of personal views and some really good case examples George Truel Author and OD Practitioner If you are going to read this book and I strongly recommend you do Beckers book is not a theoretical work It is about the experience of OD about the essential conditions that must be adhered to in order to do it professionally and about some of the mechanisms and guideposts that can be helpful in navigating through the huge complexity of a large scale organizational change it is worth reading Robin Stuart Kotze PhD International Management Consultant and Professor How to Say No...and Live to Tell About It Mary Byers,2006-02-15 Do you know a yes aholic Many women feel pressured to say yes to commitments and activities even though their time and resources are already stretched thin Mary Byers author of Mother Load offers women strategies for quickly evaluating commitments priorities and energy levels so they can realistically decide what to do Readers will discover how to know when yes isn t the logical answer identify the best use of their time use their gifts and talents more effectively turn down opportunities graciously have more time with their families Whether at home or in the business world women will be excited about these secrets to guilt free decisions that lead to more efficient productivity and more discretionary time *Live to Tell* David Talamantes,2008-05 Organisations private and public operate in an increasingly uncertain landscape in which they are confronted with challenges they might not be ready to face They desperately need the engaged minds of their workforces The evidence however suggests that for the most part they don t have that There is an urgent need to address the high cost of low trust and employee disengagement Revealing a new approach centred on redefining what we mean by management and business and that it is a collective form of learning that binds them together and facilitates sustained high performance Donal Carroll examines high performing organisations to uncover how they have built trust managed value adopted new types of business model and successfully engaged in collective learning The new management model is about retaining control by giving it away more accountable self management a new professionalism and about framing organisation as the basic unit of purpose rather than management itself Next new business models are examined more suited to complex internet enabled markets that allow greater choice but which need organizational alertness to what works Thirdly learning is considered with a focus on moving from organisational learning to productive interference sustaining action based learning that thrives on mess in an open trusting democratic climate The author provides tools and techniques enabling organisations to measure creativity and innovation and to undertake self assessment of their position in relation to the new management business and learning models as well as guidance on energising change initiatives self leading and accountability Practicing managers change leaders coaches and consultants as well as business scholars and researchers will find much that is useful in this book

**Live to Tell** Zef Pllumi,2008 In 1944 Albania erupted in civil war The communist party prevailed and acted quickly and brutally By 1946 through executions imprisonments and mass banishments the communists broke the back of Albania s

freedom A young Franciscan Catholic and man of heroic character in this time of inhumanity Friar Zef Pllumi was arrested brutally tortured imprisoned and sent to labor camps Through deeply personal descriptions of shocking atrocities Fr Pllumi focuses on his extraordinary will to survive and his powerful faith His intense desire to live to tell honors those martyred with Christ's name on their lips Fr Pllumi was initially released in 1949 Fr Pllumi's memories are a brave confrontation of communism His story's power lays in the fact that despite obscene efforts the communist party could not succeed As Fr Pllumi states They think people are frightened before dying but what they don't realize is that when you've arrived to a certain agonizing point nothing is frightening anymore Fr Pllumi's historical memoir also delivers clear lessons for today Amid the many horrors differences in beliefs melted away Christians Muslims Albanians Italians and French alike although wounded physically emotionally and spiritually were still alive to help each other and stand together and triumph for mankind

*The Daughter of Adoption* John Thelwall,2013-03-18 John Thelwall's *The Daughter of Adoption* A Tale of Modern Times is a witty and wide ranging work in which the picaresque and sentimental novel of the eighteenth century confronts the revolutionary ideas and forms of the Romantic period Thelwall puts his two main characters the conflicted English gentleman Henry Montfort and the Creole Seraphina Parkinson through their paces in a slave rebellion in Haiti where they barely escape with their lives and in London society where Henry almost loses his soul Combining political

analysis with melodrama and flat out farce Daughter expands the scope of the abolitionist novel pushing the argument beyond the slave trade to challenge empire and racial superiority Historical materials on Thelwall's life the abolitionist movement and eighteenth century educational theories provide a detailed context for the novel *How Traditions Live and Die* Olivier Morin, 2016 Of all the things we do and say most will never be repeated or reproduced Once in a while however an idea or a practice generates a chain of transmission that covers more distance through space and time than any individual person ever could What makes such transmission chains possible For two centuries the dominant view from psychology to anthropology was that humans owe their cultural prosperity to their powers of imitation In this view modern cultures exist because the people who carry them are gifted at remembering storing and reproducing information *How Traditions Live and Die* proposes an alternative to this standard view What makes traditions live is not a general purpose imitation capacity Cultural transmission is partial selective often unfaithful Some traditions live on in spite of this because they tap into widespread and basic cognitive preferences These attractive traditions spread not by being better retained or more accurately transferred but because they are transmitted over and over This theory is used to shed light on various puzzles of cultural change from the distribution of bird songs to the staying power of children's rhymes and to explain the special relation that links the human species to its cultures Morin combines recent work in cognitive anthropology with new advances in quantitative cultural history to map and predict the diffusion of traditions This book is both an introduction and an accessible alternative to contemporary theories of cultural evolution *Live in Total Peace After Death* Eril, 2013-10-03 Why is this world the only planet that has air we can breathe Why is this world the only planet to be controlled by time This planet was covered with water 6 000 years ago what happened How long will people live on earth Will this earth last forever Why was this earth made Death means separation Your spirit will leave this body Question Where will you live forever Death means separation You will be separated from your earthly body There are two places you will live after you die Heaven or Hell It is not enough to believe in Jesus Even Satan and his demons believe and tremble in Hell at the name of Jesus So what good does it do to know Jesus None if you do not believe His word Read this book to find what His promises are and how to use them Are you able to return from the grave and live forever A lot of people have come alive again My question is how many live that resurrection life forever Do you know who you will live with forever Do you believe you will meet your loved ones after you die If you are in Hell you will be hurting to the point that you will be saying just let me die But you have died for the last time To answer the question you will be hurting so much you will not care what or who is around you Please believe what I write and stay out of Hell This is my blessing to you **The Works** John Howe, 1835 [Live On](#) M. disease Mili and Eddie are heartbroken but that is only the beginning of their troubles Strange things are happening in town and someone is desperately trying to pull them apart Who or what are these mysterious forces at work threatening to shatter their every chance of happiness together Theirs is a story of a search for peace and spirituality A story of commitment deceit intrigue and drama but most importantly a story of love of learning to forgive forget and to live on A C **Attitudes on Death and Dying** Ron Lunceford, Judy Lunceford, 1976 Shakspere's Werke Shakespeare, 1876 **BRITISH MYSTERIES Boxed Set: 350+ Thriller Novels, Murder Mysteries & True Crime Stories** Agatha Christie, Edgar Wallace, Arthur Conan Doyle, Wilkie Collins, R.
