The 5 Stages To Entrepreneurial Success John North, 2018-02-27 It s a common question but what makes a successful entrepreneur Of course this question starts a whole conversation about the definition of success It s my belief that success isn t just about making money Most people start a business for the freedom they expect it to give to them The cold hard reality is that most entrepreneurs end up working longer hours and for a lot less than a typical wage Why would any sane person work for less money work much longer hours and have way less freedom than they probably had in a day job The reason is they have a much bigger vision for their future than the average person So why if someone works harder than an average worker then why doesn t every entrepreneur become massively successful What is the secret that helps the budding entrepreneur become successful It s probably a clique but there is a formula to it The challenge is that there are plenty of mad scientists out there selling you their secret formula Often it really only works for them or a few followers Why Because they probably got lucky along the way There are no real shortcuts to success of course there are exceptions to the rule It s called luck or being at the right place at the right time But often even the overnight success stories actually have a hard luck backstory and years of failure and frustration This book is about the process strategy and

Implementing an Inclusive Staffing Model for Today's Reference Services

Julia K. Nims, Paula Storm, Robert Stevens, 2013-11-26
Reference service remains a core function of modern libraries However how and where we provide assistance has evolved with changing technologies and the shifting habits and preferences of our users One way libraries can provide the on demand in person assistance while managing and developing new services and resources that will benefit current and future users is to reconsider how their reference points and services are staffed and adopt a staff based reference model The authors staff members at Eastern Michigan University chose to address this by implementing an inclusive reference model in which staff and student assistants are trained to answer certain levels of reference questions while working at the reference desk and at other service points The result was that librarians became more available to work with students who needed in depth assistance and users were able to get simple questions answered throughout the library Similar training for all staff and student assistants who work in the library results in better service more accurate answers and improved interdepartmental communication In Implementing an Inclusive Staffing Model for Today's Reference Services they describe step by step how

to transition from the traditional librarian staffed reference desk to an inclusive reference model where non MLS personnel are equipped and empowered to answer reference questions wherever these questions might be asked. Users ask questions of staff at all service points not just at the Reference Desk. It is vitally important that those who work at circulation, periodicals, maps, archives, and other public service points be trained in how to answer certain reference questions. When this is accomplished, users who have simple questions will not have to make useless treks to the Reference Desk. Topics covered include:

- Recognizing that nearly all staff answer reference questions but few are trained to do so.
- Documenting the necessity for a change in reference model.
- Gaining buy in from all interested parties: librarians, non MLS staff, and administrators.
- Determining the optimal staffing level.
- Creating training materials and schedules.
- Monitoring the quality of reference service.
- Supervising staff.
- Evaluating the new model using multiple methods.

Additionally, each chapter contains practical resources such as checklists, forms, and sample materials, and other usable features to support readers as they implement the inclusive reference model. The book describes in detail the process of transforming traditional reference into a model that transcends departmental and job title boundaries, is focused on the user, and allows librarians to better utilize their time and talents and include non professional staff in their reference services.

[The Caring Congregation Ministry Implementation Guide](#) Karen Lampe, Melissa Collier Gepford, 2021-05-04

Pastors and church leaders genuinely want to care for people in their congregations and communities. But pastors cannot care for an entire church, and most laypersons don't have the training to do it. The Caring Congregation Ministry is a model for person to person care that's been proven to work in small and large churches across the U.S. It is a laity centered ministry where laypersons receive rigorous training and then are commissioned to serve as Congregational Care Ministers, caring for others in their own congregation and their extended community. This remarkable approach to congregational care was first

developed by author Karen Lampe and her team at The United Methodist Church of the Resurrection in Kansas City It has been tested refined and strengthened and is now being adapted in all sorts of congregational settings One early adapter was co author Melissa Gepford who launched a Caring Congregation Ministry in her own rural church Together they have created this immensely practical guide for any pastor or leader seeking to create a congregational care ministry This Implementation Guide is the main book for getting started It introduces the ministry model and explains the Five Essentials which form the ministry s foundation It is extremely practical full of checklists and other tools to help pastors and other leaders understand and explain this way of providing congregational care The Implementation Guide also includes a section focused on the crucial component of this ministry the Congregational Care Minister or CCM This section fully describes the characteristics of CCM s how to recruit people to this ministry how to discern if candidates are a good fit and how to conduct the CCM training over a multi week period It details the critical information CCM s must know and the behaviors and habits they must practice in order to be effective Note that the companion book The Caring Congregation Ministry Care Minister s Manual is required for the CCM training It serves as a training workbook which then becomes the CCM s personal reference manual
