

Washing machine description

GB

Detergent dispenser

Good washing results also depend on the correct dose of detergent: adding too much detergent won't necessarily make for a more efficient wash, and may in fact cause build up on the interior of your appliance and even pollute the environment.

Open up the detergent dispenser and pour in the detergent and fabric softener, as follows.

compartment 1: Detergent for pre-wash (powder)

Pre-wash detergent should only be used with the sportswear programme , while setting the timer knob to the "auto" position or to one of the "3h" to "24h" positions (see "Detergents and laundry").

compartment 2: Detergent for the wash cycle (powder or liquid)

Liquid detergent should only be poured in immediately prior to the wash cycle start.

compartment 3: Additives (fabric softeners, etc.)

The fabric softener should not overflow from the grid.

! Do not use hand wash detergent because it may form too much foam.
