Techwise Infant and Toddler Teachers Patricia A. Cantor, Mary M. Cornish, 2016-10-01 Infants and toddlers the so called touchscreen generation are living in a screen mediasaturated world They are the target market for ever growing numbers of apps TV shows electronic toys and e books Making sense of the complex issues associated with screen media in the lives of children under 3 can be challenging for the adults who care for them There is a strong need among teachers and

parents of infants and toddlers for guidance related to the appropriate role of screen media in early care and education Unlike most other books about technology in early childhood this book focuses specifically on infants and toddlers It explores why and how infant and toddler teachers need to be techwise in order to understand the implications of screen media for children s learning and development The book serves as a single accessible resource to relevant research findings from the fields of pediatric medicine child development developmental psychology social and behavioral sciences and brain science It provides infant toddler teachers with a comprehensive approach and strategies to guide their decisionmaking and promote practices that are evidence based family centered culturally responsive and collaborative It is a call for teachers to think carefully and act wisely when making decisions about screen media both the technology that they are encountering now and the technology they will encounter in the future in order to optimize the learning and healthy development of infants and toddlers

Early Childhood Quality Rating Scale—Emergent Curriculum (ECQRS-EC) Kathy Sylva,Iram Siraj,Brenda Taggart,Denise Kingston, Young children s learning depends on a wide range of experiences that support their holistic development While many different curricular frameworks are used around the world there is increasing agreement that the emerging academic skills of language and literacy mathematics and science should be supported by a playful pedagogy in the early years The Early Childhood Quality Rating Scale Emergent Curriculum ECQRS EC is designed to measure quality in these key areas within preschool settings In addition to three content area subscales this evidence based tool includes a subscale dedicated to diversity and inclusion to help educators support gender and cultural differences in children 3 6 years old who are developing at different rates Because it recognizes the important role of the adult in providing children with high quality interactions this new quality rating scale can be used for research teacher self evaluation and program improvement audit and regulation Research that has worldwide significance is rare but the authors have strong credentials from decades of work on projects that have global relevance for early years research policy and practice From the Foreword by W Steven Barnett and Ellen C Frede co directors National Institute for Early Education Research Rutgers This indispensable tool guides policymakers researchers and early childhood educators in how to achieve high quality learning situations Sonja Sheridan University of Gothenborg Sweden The research informed ECQRS EC enables a much needed objective assessment of pedagogy and learning environments an indispensable resource Nirmala Rao The University of Hong Kong The ECQRS EC is a gift for anyone dedicated to providing high quality early education and care Tara McLaughlin Massey University New Zealand
