Introduction to Nursing

Informatics Kathryn J. Hannah, Pamela Hussey, Margaret A. Kennedy, Marion J. Ball, 2014-11-13 This 4th edition of Introduction to Nursing Informatics is designed for use by practicing nurses and students in undergraduate programs of study. It presents the fundamental concepts of Nursing Informatics and includes a number of contributions from leading experts who have practiced in the field of informatics over a number of years. The information is presented and integrated in a purposeful manner to encourage you to explore key concepts starting with the fundamental concepts and then progressing on to core concepts and practice applications in the later sections. Briefly the word CARE is presented as an acronym for Connected Health Administration Research and Education and the book is organised in sections with these sub themes.

Critically the content is linked with case based examples to contextualize the theory presented. **Contexts of Nursing** John Daly, Sandra Speedy, Debra Jackson, 2013-09-01 The new edition of this popular nursing text introduces students to the theory language and scholarship of contemporary nursing. Contexts of Nursing 4th edition continues to challenge and extend nursing students by exploring the key concepts underpinning contemporary nursing practice. This exceptional nursing textbook incorporates diverse views and voices and sometimes controversial topics encouraging student nurses to reflect, discuss and debate various issues and ultimately helping them to develop their own positions. Contexts of Nursing 4th edition features abundant new and updated content developed in consultation with practicing nurses and nursing students yet remains based on the same aims and objectives of the popular first edition. Written by expert contributors all of whom are helping shape contemporary nursing in Australia and New Zealand, this latest edition of Contexts of Nursing reflects the dynamic nature of nursing scholarship. Chapters have been thoroughly revised and updated and now include fresh learning objectives, key words, reflective questions, recommended readings and references. Content has been fully updated to reflect national registration. A restructured table of contents links key chapters. Each chapter addresses an area of study within the undergraduate nursing program. Topics include history, culture, ethics, law, technology and professional issues. **Certified**
