The Psychopathology of American Capitalism Thomas Paul Bonfiglio, 2017-06-08 This book synthesizes psychoanalytic and Marxist techniques in order to illuminate the resistance to a socialization of the American economy the protectionist discourses of anomalous American capitalism and the suppression of the capitalist welfare state After the Second World War Democrats and Republicans effectively eliminated the communist and socialist parties from the American political spectrum and suppressed their allied labor movements The right wing shift of both parties fabricated a false opposition of left and right that does not correspond to political oppositions in the industrialized democracies Marxist perspectives can account for the massive inequality of the political economy but they are insufficient for illuminating its preservation Psychoanalysis is necessary in order to explain why Americans continue to vote within a two party system that neglects the lower classes and why the working class tends to vote against its own interests The psychoanalytic techniques employed include doubling repetition displacement condensation inversion denial fetishizing and cognitive repression In examining the fixation upon the proxy binary of Democrat vs Republican which suppresses the true opposition of left vs right and neutralizes alternatives the work analyses numerous contemporary political issues through applications of Marxist psychoanalytic theory

Map Room, 1884 *Martin Heidegger and the Truth About the Black Notebooks* Friedrich-Wilhelm von Herrmann, Francesco Alfieri, 2022-01-01 Toward the beginning of 2013 I received reports of passages in the Black Notebooks that offered observations on Jewry or as the case may be world Jewry It immediately became clear to me that the publication of the Black Notebooks would call forth a wide spread international debate Already in the Spring of 2013 I had asked Professor Friedrich Wilhelm von Herrmann last private assistant and in the words of my grandfather the chief co worker of the complete edition if he might review the Notebooks as a whole based on his profound insight into the thought of Martin Heidegger and in particular review those Jewish related passages that were the focus of the public eye Publications about the Black Notebooks quickly came to propagate catchy expressions such as being historical anti-Semitism and metaphysical anti-Semitism The first question that obviously arises is Does the thought of Martin Heidegger exhibit any kind of anti-Semitism at all In this book Professor von Herrmann now advances his hermeneutic explication With Professor Francesco Alfieri of the Pontificia Universit Lateranense he has found a colleague who has drawn up a comprehensive philological analysis of volumes GA 94 through GA 97 of the Complete Edition The fact that Heidegger designated the hitherto published black notebooks as Ponderings *berlegungen* and as Observations *Anmerkungen* has been given little consideration He intentionally placed them at the conclusion of the Complete Edition because without acquaintance with the lectures and above all with the being historical treatises that would come to be published in the framework of the Complete Edition they would not be comprehensible Arnulf Heidegger *Introduction to Intelligent Construction Technology of Transportation Infrastructure* Guanghui Xu, Dongsheng Wang, 2022-09-09 This book expounds on
