**FX150**

This manual should be considered a permanent part of the motorcycle and should remain with the motorcycle when resold or otherwise transferred to a new owner or operator. The manual contains important safety information and instructions which should be read carefully before operating the motorcycle.

**IMPORTANT**

**BREAK-IN (RUNNING-IN) INFORMATION FOR YOUR MOTORCYCLE**

The first 1,500 km (1,000 miles) are the most important in the life of your motorcycle. Proper break-in operation during this time will help ensure maximum life and performance from your new motorcycle. Suzuki parts are manufactured of high quality materials, and machined parts are finished to close tolerances. Proper break-in operation allows the machined surfaces to polish each other and mate smoothly.

Motorcycle reliability and performance depend on special care and restraint exercised during the break-in period. It is especially important that you avoid operating the engine in a manner which could expose the engine parts to excessive heat.

Please refer to the **BREAK-IN (RUNNING-IN)** section for specific break-in recommendations.

**WARNING/CAUTION/NOTE**

Please read this manual and follow its instructions carefully. To emphasize special information the words **WARNING**, **CAUTION** and **NOTE** carry special meanings and should be carefully reviewed.

**▲ WARNING**

The personal safety of the rider may be involved. Disregarding this label could result in injury to the rider.

**▲ CAUTION**

These instructions point out special service procedures or precautions that must be followed to avoid damaging the machine.

**NOTE:** This provides special information to make maintenance easier or important instructions clearer.
