Neural Basis of Motivational and Cognitive Control Rogier B. Mars, 2011 A multidisciplinary overview of key approaches in the study of cognitive control and decision making

Biosonar Annemarie Surlykke, Paul E. Nachtigall, Richard R. Fay, Arthur N. Popper, 2014-07-19 Two groups of animals bats and odontocetes toothed whales have independently developed the ability to orient and detect prey by biosonar echolocation This active mechanism of orientation allows these animals to operate under low light conditions Biosonar is a conceptual overview of what is known about biosonar in bats and odontocetes Chapters are written by bat and odontocetes experts resulting in collaborations that not only examine data on both animals but also compare and contrast mechanisms This book provides a unique insight that will help improve our understanding of biosonar in both animal groups

Building up the inhibitory synapse Enrico Cherubini, Fast inhibitory transmission exerts a powerful control on neuronal excitability and network oscillations thought to be associated with high cognitive functions An alteration of inhibitory signaling is associated with major neurological and psychiatric disorders including epilepsy Once released from presynaptic nerve terminals GABA and glycine cross the synaptic cleft and bind to postsynaptic receptors localized in precise apposition to presynaptic release sites The functional organization of inhibitory synapses consists in a dynamic process which relies on a number of highly specialized proteins that ensure the correct targeting clustering stabilization and subsequent fate of synaptic receptors Among the proteins involved in this task the tubulin binding protein gephyrin plays a crucial role Through its self oligomerization properties this protein forms hexagonal lattices that trap GABAA and glycine receptors and link them to the cytoskeleton By directly interacting with cell adhesion molecules of the neuroligin neuroligin families that connect presynaptic and postsynaptic neurons at synapses gephyrin ensures a backward control of presynaptic signaling In addition changes in clusters size is dynamically regulated by lateral diffusion of neurotransmitter receptors between the synaptic and extrasynaptic compartments and by their interaction with synaptic scaffold proteins The aim of this Research Topic research articles and reviews is to bring together experts on the cellular and molecular mechanisms regulating the appropriate assembly location and function of pre and postsynaptic specializations at inhibitory synapses A particular emphasis will be on the role of receptor trafficking in synaptic stabilization and plasticity

Childhood, Youth, and Social Work in Transformation Lynn M. Nybell,Jeffrey J. Shook,Janet L. Finn,2009-01-30 Social workers today not only face competing claims concerning the rights and needs of children and youth but they also confront contradictions between policy and practice Social workers are expected to fight for the best interests of the child even though financial support for children s welfare and education grows scarce They are asked to save children at risk while at the same time they are urged to protect communities from risky children and they are encouraged to leave no child behind while also implementing zero tolerance policies to keep educational environments free from troubled youth A cutting edge text that deals directly with the confusion and complexity of modern child welfare Childhood Youth and Social Work in Transformation features contributions from a truly interdisciplinary group of practitioners scholars and activists Examining the theoretical political and practical aspects of working with youth today this volume breaks free from existing modes of thought and strategies of practice and prompts readers to critically reflect on accepted approaches and new possibilities of action Contributors analyze how economic political and cultural changes over the last several decades have reshaped the experiences and representations of children and youth in the United States They examine conceptions of troubled children and youth in contemporary policies and programs and assess why certain discourses about troubling youth are so compelling to professionals policymakers and the public In conclusion these skilled professionals explore the reinvention of social work policy and practice including the need to forge relationships that respect the experiences rights and personhood of children and youth *Central Asia and the Rise of Normative Powers* Emilian Kavalski,2012-10-15 This book offers a unique analytical investigation of the international politics of the EU China and India in the context of their security strategies in

Central Asia It shows how the interaction between these three actors is likely to change the frameworks and practices of international relations This is studied through their interactions with central Asia using the framework of normative powers and the concept of regional security governance Briefly a normative power shapes a target state s attitudes and perceptions as it internalizes and adopts the perspectives of the normative power as the norm The work comparatively studies the dynamics that have allowed Beijing Brussels and New Delhi to articulate security mechanisms in Central Asia and become rising normative powers This innovative study does not aim to catalog foreign policies but to uncover the dominant perceptions cognitive structures and practices that guide these actors regional agency as exemplified through the context of Central Asia It will be an essential resource for anyone studying international relations international relations theory and foreign policy analysis

Diversity and Inclusion on Campus Rachelle Winkle-Wagner,Angela M. Locks,2013-09-05 As scholars and practitioners in higher education attempt to embrace and lead diversity efforts it is imperative that they have an understanding of the issues that affect historically underrepresented students Using an intersectional approach that connects the categories of race class and gender Diversity and Inclusion on Campus comprehensively covers the range of college experiences from gaining access to higher education to successfully persisting through degree programs Authors Winkle Wagner and Locks bridge research theory and practice related to the ways that peers faculty administrators and institutions can and do influence racially and ethnically underrepresented students experiences This book is an invaluable resource for future and current higher education and student affairs practitioners working toward full inclusion and participation for all students in higher education Special features Chapter Case Studies cases written by on the ground practitioners help readers make meaningful connections between theory research and practice Coverage of Theory and Research each chapter provides a systematic treatment of the literature and research related to underrepresented students experiences of getting into college getting through college and getting out of college Discussion Questions questions encourage practitioners and researchers to explore concepts in more depth consider best practices and make connections to their own contexts

Routledge Handbook of Coaching Children in Sport Martin Toms,Ruth Jeanes,2022-12-23 The Routledge Handbook of Coaching Children in Sport provides a comprehensive and extensive range of critical reflections of key areas impacting on children s sport and coaching up to the age of 16 With coaching related chapters authored by academic across various disciplines including nutrition psychology pedagogy medicine youth development and sociology the text provides detailed reviews of the existing state of research and consideration of the implications of these particular factors upon parents coaches administrators and clearly the young people themselves as well as recommendations for future research This new volume provides in depth investigation to key topics of coaching topics such as Learning and Child Development Protecting Young Athletes Talent Identification and Development and Inclusive Coaching and finally introduce a broad array of contextual considerations for coaches from considering professional learning through to coaching in particular contexts This

book is more than simply an academic text and it offers insights that will further inform practice in children's sport coaching. The handbook is relevant for students, UG/PG researchers, academics, parents, coaches and administrators as well as those interested in children's sport coaching and the related topics therein. Martin Toms PhD is a senior lecturer/associate professor in the School of Sport, Exercise and Rehabilitation Sciences at the University of Birmingham, UK. A former professional sports coach with an MPhil and PhD exploring the sociological issues of young people in junior sport, Martin has been heavily involved in juniors sport all of his adult life. He has published widely and presented extensively around the world on youth sport including working on international projects and for NBGs, Federations and National Governmental organisations. He has gained European and SCUK funding for youth and coaching related projects as well as being involved in international consultancy. He is a co-editor of the European Journal for Sport and Society as well as the current Editor in Chief of the International Journal of Golf Science. Ruth Jeanes PhD is an associate professor in the Faculty of Education at Monash University, Australia. Ruth's research examines inclusion and exclusion within youth sport, particularly examining how sport can be used to achieve broader social policy objectives targeted at young people. Within this, she is particularly interested in the role of coaches in facilitating broader social outcomes for young people. Ruth has published extensively in these areas with over 100 publications across journal articles, book chapters and books. She is widely cited and has been successful in securing extensive funding for her research including two highly competitive Australian Research Council grants.

Reconceptualizing the Literacies in Adolescents' Lives Donna E. Alvermann, Kathleen A. Hinchman, David W. Moore, III, David W. Moore, Stephen F. Phelps, Diane R. Waff, 2007-07-10

Reconceptualizing the Literacies in Adolescents' Lives Second Edition focuses on exploring the impact of young people's identity-making practices in mediating their perceptions of themselves as readers and writers in an era of externally mandated reforms. What is different in the Second Edition is its emphasis on the importance of valuing adolescents' perspectives in an era of skyrocketing interest in improving literacy instruction at the middle and high school levels driven by externally mandated reforms and accountability measures. A central concern is the degree to which this new interest takes into account adolescents' personal, social and cultural experiences in relation to literacy learning. In this new edition of *Reconceptualizing the Literacies in Adolescents' Lives*, students' voices and perspectives are featured front and center in every chapter. Particular attention is given throughout to multiple literacies, especially how information and new communication technologies are changing learning from and with text. Nine of the 15 chapters are new; all other chapters are thoroughly updated. The volume is structured around four main themes: *Situating Adolescents' Literacies* addressing how young people use favorite texts to perform their identities; how they counter school-based constructions of incompetence; and how they re-construct their literate identities in relation to certain kinds of gendered expectations, pedagogies and cultural resources; *Positioning Youth as Readers and Writers* stressing the importance of classroom discourse, cultural capital, agency and democratic citizenship in mediating adolescents' literate

identities Mediating Practices in Young People's Literacies looking at issues of language social class race and culture in shaping how adolescents represent themselves and are represented by others and Changing Teachers Teaching Changes capturing the productive ambiguities associated with teaching urban adolescents to read and write in changing times encouraging students to conduct action research on topics that are personally relevant and using enabling constraints as a concept to formulate policies on adolescent literacy instruction Reconceptualizing the Literacies in Adolescents Lives Second Edition is an essential volume for researchers faculty teacher educators and graduate students in the field of adolescent literacy education *Southern California Range Complex*, 2008 Determinants of Minority Mental Health and Wellness Sana Loue, Martha Sajatovic, 2008-12-19 The United States is experiencing a dramatic shift in demographics with minorities comprising a rapidly growing proportion of the population It is anticipated that this will likely lead to substantial changes in previously established values needs and priorities of the population including health and mental health for individuals families and society at large This volume focuses on determinants of minority mental health and wellness This emphasis necessarily raises the question of just who is a minority and how is minority to be defined The term has been defined in any number of ways Wirth 1945 p 347 offered one of the earliest definitions of minority We may define a minority as a group of people who because of their physical or cultural characteristics are singled out from the others in the society in which they live for differential and unequal treatment and who therefore regard themselves as objects of collective discrimination The existence of a minority in a society implies the existence of a corresponding dominant group enjoying higher social status and greater privileges **Handbook of PTSD, First Edition** Matthew J. Friedman, Terence M. Keane, Patricia A. Resick, 2007-05-29 Unparalleled in its breadth and depth this state of the art handbook reviews current scientific advances in understanding trauma and PTSD discusses the implications for clinical practice and evaluates the status of evidence based assessment and treatment The foremost authorities in the field examine posttraumatic psychological reactions on multiple levels from genes and neurocircuitry to gender and lifespan development Established and emerging psychological medical and public health interventions are discussed in depth as are issues in tailoring treatment to the needs of different populations Special topics include forensic issues resilience and prevention The integrative concluding chapter presents a reasoned agenda for future research Clinical Blood Pool MR Imaging Tim Leiner, Mathias Goyen, Martin Rohrer, Stefan O. Schönberg, 2009-10-27 Magnetic resonance angiography has made great strides with continuing improvements in hardware pulse sequencing and now allowing ever increasing speed resolution and suppression of artifacts However an inherent physical barrier has always been limited SNR Gadolinium contrast agents help to increase SNR by facilitating T1 relaxation but they can be injected only at a finite rate and at a limited molar dose and there is a rapid drop in concentration following the brief arterial phase due to redistribution into the extracellular fluid compartment With its sixfold increase in T1 relaxivity blood pool distribution and longer serum half life Vasovist represents a new breakthrough which promises to revolutionize

MRA image quality once again This excellent treatise on Vasovist created by a team of exceptional faculty who are pioneers in MR angiography covers the basic techniques safety efficacy image processing and pharmacoeconomic details to successfully implement a new level of MRA image quality with this new contrast agent In addition to improving all the usual arterial phase MRA plications the blood pool distribution opens up new possibilities including detecting internal bleeding and imaging stent graft endoleaks which are reviewed in detail In the complex competitive field of cardiovascular imaging this book articulates the cutting edge in imaging vascular disease

Family Communication Chris Segrin, Jeanne

Flora, 2011-10-14 Family Communication carefully examines state of the art research and theories of family communication and family relationships In addition to presenting cutting edge research it focuses on classic theories and research findings that have influenced and revolutionized the way scholars conceptualize family interaction This text offers a thorough and up to date presentation of scientific research in family communication for both teachers and students of family communication as well as professionals who work with families This second edition features Chapters updated with the latest research including over 2000 references Material on understudied family relationships such as extended family relationships and gay and lesbian relationships Recent research on understudied topics in family communication including the influence of technology on mate selection negotiating work and family stress single parenting cohabitation elder abuse forgiveness in marriage and the links among communication culture and mental health A revised chapter on parent child communication taking a lifespan perspective that helps organize the large body of research in this area A new chapter devoted to extended family relationships with special focus on grandparent grandchild relationships in law relationships and adult children and their parents An expanded review of family conflict processes especially in relation to decision making and power A companion website provides chapter outlines exam questions and PowerPoint slides for students and instructors Undergraduate readers should find the information easy to understand while advanced readers such as graduate students and professionals will find it a useful reference to classic and contemporary research on family communication and relationships
