Eighteen Basic Color (also known as the **Color Wheel**) is a tool used to show the relationship between colors and how they are used in design. It is a circular diagram that is divided into 18 segments, each representing a different color. The colors are arranged in a way that shows how they relate to each other, such as complementary colors (opposite each other) and analogous colors (adjacent to each other). The Color Wheel is a fundamental tool for artists, designers, and anyone interested in color theory.
