Proceedings of the University of Fort Hare Teaching and Learning Conference (UFHTL 2023) Thabisa Mayisela, Liezel Cilliers, 2024-06-18 This is an open access book *Blended Learning as a Blueprint for Higher Education Transformation* across the higher education landscape there is talk of consolidating the gains of COVID 19 and the leveraging of advances with blended learning to mitigate challenges and benefit student learning The main purpose of the colloquium is to explore the possibilities complexities and affordances of the Fourth Industrial Revolution 4IR in Higher Education in so far as they relate to teaching and learning This will be achieved through the interrogation of practices and experiences with respect to enablement enhancement and support of programmes and arrangements as well as students and lecturers practices and experiences

Anchored in Place Bank, Leslie, Cloete, Nico, 2018-11-05 Tensions in South African universities have traditionally centred around equity particularly access and affordability historical legacies such as apartheid and colonialism and the shape and structure of the higher education system What has not received sufficient attention is the contribution of the university to place based development This volume is the first in South Africa to engage seriously with the place based developmental role of universities In the international literature and policy there has been an increasing integration of the university with place based development especially in cities This volume weighs in on the debate by drawing attention to the place based roles and agency of South African universities in their local towns and cities It acknowledges that universities were given specific development roles in regions homelands and towns under apartheid and comments on why sub national place based development has not been a key theme in post apartheid higher education planning Given the developmental crisis in the country universities could be expected to play a more constructive and meaningful role in the development of their own precincts cities and regions But what should that role be Is there evidence that this is already occurring in South Africa despite the lack of a national policy framework What plans and programmes are in place and what is needed to expand the development agency of universities at the local level Who and what might be involved Where should the focus lie and who might benefit most and why Is there a need perhaps to approach the challenges of college towns secondary cities and metropolitan centers differently This book poses some of these questions as it considers the experiences of a number of South African universities including Wits Pretoria Nelson Mandela University and especially Fort Hare as one of its post centenary challenges

Lessons To Be Learnt From The World's Great Icons Life Experiences. Bheki S.V. Ntshingila, 2016-11-23 The book is about the late Mr Nelson Mandela the unrepentant crusader and freedom fighter against the obnoxious apartheid regime in South Africa who became an instant toast of the entire world which is a reminder that in each person there is a seed of greatness expected to be discovered and to be used to make this world a better one for all who live in it instead of experiencing hatred and brutality What makes a person to succeed is not how bad she or he thinks but is high optimism thinking big willingness to learn from others mistakes and life experiences There is a lot we can learn from

Madiba's life experience and I don't doubt that the world is also learning something constructive or destructive from you. If you are not constructive to others, how would you be constructive to yourself? Remember, greatness is a phenomenon that could be associated with anyone with a positive mind. Good better, best, never let it rest till your good is better and your better is best.

Historical Dictionary of South Africa Christopher Saunders, Peter Limb, 2020-12-15 As the most influential and powerful country on the entire continent of Africa, an understanding of South Africa's past and its present trends is crucial in appreciating where South Africans are going to and from where they have come. South Africa changed dramatically in 1994 when apartheid was dismantled and it became a democratic state. Since 2000, when the previous edition appeared, further big changes occurred with the rise of new political leaders and of a new black middle class. There were also serious problems in governance in public health and the economy, but with a remarkable popular resilience too. This third edition of *Historical Dictionary of South Africa* contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 600 cross-referenced entries on important personalities as well as aspects of the country's politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about South Africa.
