FR-820

1. General Description

The FR-820 is a scientific calculator with a liquid crystal display (LCD) showing 12 digits. It features a variety of functions including basic arithmetic, trigonometric, logarithmic, and exponential calculations. The calculator is powered by a single 1.5V AAA battery and has a memory for storing numbers and programs.

The FR-820 is designed for portability and ease of use. It has a compact size and a clear LCD display. The calculator is suitable for students, professionals, and anyone who needs a reliable scientific calculator.

2. Read the Instructions

Before using the calculator, please read the instructions carefully. This manual provides detailed information about the calculator's features and how to use them. It is important to understand the calculator's capabilities and limitations to ensure accurate results.

3. Basic Mode Selection

The calculator has several modes for different types of calculations. To select a mode, press the appropriate function key. The LCD display will show the selected mode. For example, pressing the 'MODE' key will cycle through the available modes.

4. Loading the Paper Roll

The FR-820 has a built-in paper roll for recording calculations. To load the paper roll, open the paper compartment and insert the roll. The roll is designed to be used with a pen or pencil to write down the results of your calculations.

The paper roll is a continuous strip of paper that can be used for many calculations. It is a convenient way to keep a record of your work and to share it with others.

5. Powering Up the Calculator

To power up the calculator, insert the battery into the battery compartment. The LCD display will light up, indicating that the calculator is on. If the display does not light up, check the battery polarity and the battery compartment cover.

The calculator has a low battery indicator. When the battery is low, the LCD display will show a low battery symbol. It is important to replace the battery when the indicator appears to avoid losing data.

6. Memory for the calculator

The calculator has a memory for storing numbers and programs. To store a number, press the 'M+' key. To recall a number, press the 'M-' key. The memory can store up to 10 numbers and 10 programs.

7. Program Description

The calculator has several programs for different types of calculations. Each program is designed to perform a specific task, such as calculating the area of a circle or the volume of a sphere. To use a program, press the appropriate function key.

8. Calculations on units, the angle

The calculator can perform calculations on units and angles. To convert units, use the 'UNIT' key. To calculate angles, use the 'ANGLE' key. The calculator will show the result in the selected unit or angle.

9. Storing the Roll Paper

When you are finished using the calculator, please store the paper roll properly. The roll should be kept in a dry, cool place to prevent damage. Do not use the roll for other purposes, as this may affect the calculator's performance.
