London Fragments Rüdiger Görner, 2015-05-15 Meet Shakespeare Heine and Hogarth south of the river find Virginia Woolf in Bloomsbury discovers Blake and Trollope in Westminster happen on the Carlyles in Chelsea come across John Keats in beautiful Hampstead and search for Bacon and Hanif Kureishi in the London suburbs *Sophocles, the plays and fragments* Sophocles, 1887 **Philosophizing ad Infinitum** Marcel Conche, 2014-05-08 One of France's preeminent historians of philosophy Marcel Conche has written and translated more than thirty-five books and is recognized for his groundbreaking and authoritative work in Greek philosophy as well as on Montaigne. In *Philosophizing ad Infinitum* one of his most remarkable and daring books Conche articulates a unique and powerful understanding of nature inclusive of humanity as infinite in time and space ever self-renewing eternal and beyond complete understanding or control. In today's world the notion of infinity is at the core of the crisis humanity faces understanding nature. For the last two hundred years economies have been running at full speed fueled by the implicit belief that natural resources are infinite however it is clear that they are not and that humanity needs to radically rethink the foundations of environmental and economic systems. Conche seeks to begin this rethinking illustrating along the way insightful and sometimes unorthodox ideas about Plato Aristotle Epicurus Montaigne Nietzsche Bergson and others *Cesti: The Extant Fragments (Die Griechischen Christlichen Schriftsteller Der Ersten Jahrhunderte)* Sextus Julius Africanus, 2007 Iulius Africanus has rightly been called the Father of Christian Chronography. His world chronicle is one of the few works of Christian literature pioneering a new genre. Late Antiquity and the Middle Ages mainly articulated their reflection on history in the form of the world chronicle. The work has not been preserved in its entirety the extant fragments have to be laboriously pieced together from the works of later authors. To date there has not been a critical edition of this material and the edition in use today dates back nearly 200 years. J. M. Routh 1814. This new edition in the GCS series closes an old gap in the programme of this series and at the same time marks a new beginning because this is the first edition ever in this series to be published with an English translation. The edition establishes a completely new foundation for our knowledge of Early Christian historical thinking and in addition provides an important component in our understanding of an important epoch the Imperial Crisis of the 3rd century in which the new world of Late Antiquity began to develop out of the Hellenic Roman heritage **The Complete Works of Sir Richard Francis Burton** Richard Francis Burton, 2023-12-27 The Complete Works of Sir Richard Francis Burton presents a remarkable compendium of the diverse and irreplaceable contributions of one of the Victorian era's most enigmatic explorers and linguists. Burton's literary style is characterized by meticulous observation vivid descriptions and an unyielding curiosity about the cultures he encountered offering readers an immersive insight into the worlds of travel anthropology and sexuality. His works spanning poetry travel narratives and translations not only reflect the complexities of 19th-century imperial attitudes but also challenge them presenting alternative perspectives on colonial encounters and human behavior. Sir Richard

Francis Burton was not merely an explorer he was a polymath steeped in languages religions and the arts with a lifelong fascination for understanding the other His upbringing in a cultured household fostered a passion for exploration and scholarship while his personal quests such as his expeditions to discover the sources of the Nile reveal an individual unafraid to push societal boundaries This intellectual background undoubtedly shaped the eclectic tapestry of his writings The Complete Works of Sir Richard Francis Burton is an essential addition to the libraries of those interested in exploration cultural studies and Victorian literature This collection invites readers to delve into the multifaceted voice of a man who was as controversial as he was visionary encouraging a critical engagement with the legacies of exploration and representation

Fragments of an Unfinished War Françoise Mengin, 2015-01-09 The Republic of China that retreated to Taiwan in 1949 maintains its de facto if not de jure independence yet Beijing has consistently refused formally to abandon the idea of reunifying Taiwan with China As well as growing military pressure the PRC s irredentist policy is premised on encouraging

cross Straits economic integration Responding to preferential measures Taiwanese industrialists have invested massively in the PRC often relocating their businesses there Fragments of a nation torn apart by contradictory claims these entrepreneurs are vectors of a new form of unification imposed by the main land promoted but postponed on the island by the Nationalist Party and rejected by Taiwanese pro independence parties Within what can be described as an unfinished civil war socio economic dynamics remain embedded in conflicts over sovereignty Trans national actors have freed themselves from security constraints thereby benefiting economically from a reformist China and ultimately restructuring politics in Taiwan itself and in so doing relations between Beijing and Taipei A fictitious depoliticization has governed the opening of the Sino Taiwanese border in order to postpone any resolution of the sovereignty issue Mengin s startlingly original book highlights the competing and fragmented elements within one of the world s most intractable territorial disputes *Richard Cantillon's Essay on the Nature of Trade in General* Richard Cantillon,2015-05-15 The *Essay on the Nature of Trade in General* was written in the early 1730s by Richard Cantillon a speculator and banker who had made a vast fortune during the Mississippi and South Sea Bubbles of 1719 20 The work remained unpublished for about two decades but when it appeared posthumously in Paris in 1755 the book was immediately recognised as a brilliant genre defining contribution to the then emerging intellectual discipline of political economy A degree of mystery has always surrounded the publication of the *Essay* Cantillon died under mysterious circumstances in 1734 but the work survived in various manuscript forms This edition offers an innovative mode of presentation displaying for the very first time all print and manuscript versions of the *Essay* in parallel This allows the reader to appreciate different formulations of Cantillon s seminal contributions to a range of topics including his circular flow analysis monetary theory theories of value and distribution the role of the entrepreneur spatial economics and international trade Richly annotated and accompanied by a detailed study of the historical background of Cantillon s writings this new scholarly edition offers many new insights into this early masterpiece of economic theory
