Spadoni,2007-09-04 In 1931 Universal Pictures released Dracula and Frankenstein two films that inaugurated the horror
genre in Hollywood cinema These films appeared directly on the heels of Hollywood s transition to sound film Uncanny
Bodies argues that the coming of sound inspired more in these massively influential horror movies than screams creaking
doors and howling wolves A close examination of the historical reception of films of the transition period reveals that sound
films could seem to their earliest viewers unreal and ghostly By comparing this audience impression to the first sound horror
films Robert Spadoni makes a case for understanding film viewing as a force that can powerfully shape both the minutest
aspects of individual films and the broadest sweep of film production trends and for seeing aftereffects of the temporary
weirdness of sound film deeply etched in the basic character of one of our most enduring film genres **A Critical**
