qualitative assessment of a gender-sensitive agricultural training program in Benin: Findings on program experience and

women's empowerment across key agricultural value chains Eissler, Sarah,Diatta, Ampa Dogui,Heckert, Jessica,Nordehn,

Caitlin,2021-03-02 This study presents qualitative findings from an assessment conducted by the International Food Policy

Research Institute and Cultural Practice LLC of the African Union Development Agency New Partnership for Africa s

Development AUDA NEPAD Agricultural Technical Vocational Education and Training program for women ATVET4Women in

Benin supported by the Deutsche Gesellschaft f r Internationale Zusammenarbeit GIZ ATVET4Women in Benin targets

women working in value chains for four target commodities soy rice chicken and compost to support capacity building in

their respective nodes production processing and marketing The contributions of this study are multifold First it assesses

program experiences and impacts Second it examines the gender dimensions of production processing and marketing

activities in four specific value chains Third this research is a component of a broader study to adapt and validate the project

level Women s Empowerment in Agriculture Index for market inclusion pro WEAI MI on key agricultural value chains in

Benin and Malawi for ATVET4Women This study employed multiple qualitative methods to assess beneficiaries program

experiences and impacts Fifteen key informant interviews were conducted with various actors along the value chain and agro

processing center managers involved in ATVET4Women Thirty eight semi structured interviews were conducted with women

beneficiaries of ATVET4Women husbands of beneficiaries women that were involved in the value chain but did not

participate in ATVET4Women and ATVET4Women trainers Structured observations were conducted of five ATVET4Women

training centers In general women beneficiaries and their husbands shared positive reviews of ATVET4Women in that the

program increased women s confidence in their abilities and taught women best practices for producing and selling higher

quality products generating higher incomes for women Women noted several challenges and barriers to participate in

ATVET4Women including limited availability to travel to or partake in the trainings due to competing demands and priorities

on their time requiring their husbands permission to attend and limited means to support travel to and from trainings

Related to findings around empowerment results suggest that an empowered woman is closely tied to her ability to generate

income regardless of her decision making autonomy whereas an empowered man is one who generates higher incomes and is

autonomous in his decision making A woman is expected to be submissive to her husband and defer to his decision making

which holds implications for her ability to participate in activities outside of the household including but not limited to

ATVET4Women and similar programs This study concludes with specific recommendations for ATVET4Women and similar programs to consider in future iterations of further programming to increase women s empowerment in Benin
