Inventing Value Dave Elder-Vass,2022-08-11 Value is central to the market sectors of the contemporary economy yet the best established theories of value fail to expose how it operates and how it is manipulated for profit This book begins to reconstruct the theory of value In one sense it argues value is a personal assessment of worth but those assessments draw deeply on normative standards The book examines those standards and how they are formed transformed and supported by the construction of new social structures The empirical evidence comes from contemporary financial examples the mortgage backed securities that caused the global crash of 2008 how venture capitalists secure outrageous valuations for so called unicorn companies and the rise of Bitcoin The result is a theory that shows how value is invented by value entrepreneurs in pursuit of their interests and thus provides a new basis for criticising the role of value in the commodity economy and the finance sector

Surplus-Enjoyment Slavoj Žižek, 2022-08-11 Contemporary life is defined by excess There must always be more there is never enough We need a surplus to what we need to be able to truly enjoy what we have Slavoj Žižek's guide to surplus and why it's enjoyable begins by arguing that what is surplus to our needs is by its very nature unsubstantial and unnecessary But perversely without this surplus we wouldn't be able to enjoy what is substantial and necessary Indeed without the surplus we wouldn't be able to identify what was the perfect amount Is there any escape from the vicious cycle of surplus enjoyment or are we forever doomed to simply want more Engaging with everything from The Joker film to pop songs and Thomas Aquinas to the history of pandemics Žižek argues that recognising the society of enjoyment we live in for what it is can provide an explanation for the political impasses in which we find ourselves today And if we begin even a little bit to recognise that the nuggets of enjoyment we find in excess are as flimsy and futile might we find a way out
