Contemporary Encounters with Ancient Practice Abraham Jacob Greenstine, Ryan J. Johnson, 2024-12-31 This volume collects written and visual works that engage with opportunities of ancient practice from within the continental tradition More than surveying ancient ethical or political ideas the chapters develop divergent yet resonant approaches to concrete ways of living acting reflecting and being with others found in antiquity and its reception The practices involve the habits exercises activities philosophies and lives of today's readers and so most chapters encourage the reader to do something to put the ideas into practice Withstanding a temptation to simply theorize practice it insists on the embodied and shared materiality of living in singular times and places The practical encounters between this book and its readers range across antiquity and the contemporary world from political theatre casuistry and slavery to book production friendship and our own mortality Through thinker practitioner collaborations occasional pieces exhortations to readers and recipes for action this work strives to articulate and cultivate old and new practices for our lives
