Thalheim,2022-05-02 The school to prison pipeline is not what it is popularly advertised to be by the major media whereby the installation of safety officers and security personnel in schools to protect the learning environment for all the students leads to mostly young men of color getting a record for disruptive behavior and being channeled into prison as the logical result of attending K 12 public schools Rather the school to prison pipeline is a conduit opened and maintained by the statists those who promote the state before the citizen to keep as many students as possible in the public school monopoly so that the two leading teacher unions the National Education Association and the American Federation of Teachers maintain as many dues paying members as possible and to increase the number of dues payers regardless of its impact on our children The promoters of the school to prison pipeline deny African American Hispanic Asian white and other students of color from high needs socioeconomic backgrounds a choice of where to go to school If these parents or guardians want their children to go to

a public charter or to use a voucher to select another private option that is where the inquiry should end the simple choice by their parents and guardians Instead the state wins by keeping more people in the state run pipeline The public unions win by keeping more unionized school staff and keeping the dues gravy train coming in to support unions who in turn use their political strength to help elect candidates who favor unionized public schools versus school choice for our children and young people How do the children win if their education options are artificially restricted The students lose by being blocked in sometimes failing public schools with no viable choice to go elsewhere And the poorer you are the fewer choices you generally have This denial of school choice would particularly impact black students as blacks have disproportionately less money than the average American
