ECGBL2015-9th European Conference on

Games Based Learning Robin Munkvold and Line Kolås, 2015-09-18 These proceedings represent the work of researchers participating in the 9th European Conference on Games Based Learning which is being hosted this year by Nord Trondelag University College Steinkjer Norway on the 8-9 October 2015. The Conference has become a key platform for individuals to present their research findings, display their work in progress and discuss conceptual advances in many different areas and specialties within Games Based Learning. It also offers the opportunity for like-minded individuals to meet, discuss and share knowledge. ECGBL continues to evolve and develop and the wide range of papers and topics will ensure an interesting two-day conference. In addition to the main streams of the conference, there are mini-tracks focusing on the areas of the design of multiplayer collaborative serious games, applied Games and gamification, the teacher's role in game-based learning, games for STEM, Science Technology Engineering Mathematics, learning assessment of digital game-based learning and pervasive and ubiquitous gaming for learning. In addition to the presentations of research, we are delighted to host the third year of the Serious Game competition which provides an opportunity for educational game designers and creators to participate in the conference and demonstrate their game design and development skills in an international competition. This competition is again sponsored by SEGAN Serious Games Network. With an initial submission of more than 60 games, 28 finalists will present their games at the conference. Prizes will be awarded to the games judged to demonstrate the best quality and originality of game play itself and the positioning and articulation of the game's contribution to the educational domain. With an initial submission of 190 abstracts, after the double-blind peer review process, there are 75 research papers, 15 PhD research papers, 4 Non-Academic papers and 8 work-in-progress papers published in these Conference Proceedings. These papers represent research from more than 40 countries including Australia, Austria, Belgium, Brazil, Bulgaria, Canada, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Israel, Italy, Japan, Malaysia, Norway, Portugal, Russia, Saudi Arabia, Slovakia, Slovenia, South Africa, Spain, Sweden, Switzerland, Taiwan, ROC, The Netherlands, The Netherlands, United Arab Emirates, UK and USA.

Redefining Geek Cassidy Puckett, 2022-04-20 After six years teaching technology classes to first-generation low-income middle school students in Oakland, California, Cassidy Puckett has seen firsthand that being good with technology is not something people are born with; it's something they learn. In *Redefining Geek*, she overturns the stereotypes around the digitally savvy and identifies the habits that can help everyone cultivate their inner geek. Through her solid research and her experiences with working with diverse student learners, Puckett does an exemplary job in helping readers understand and rethink what it means to be technologically competent. This knowledge and her guidance, coupled with a thorough examination of how our biases can further exacerbate the digital divide, is beneficial in designing tech curriculum and programs that are more inclusive and supportive to the diverse communities that they are serving. A must-read for any professional seeking to improve and advance technology education.
