Between Caring & Counting Lindsay Kerr, 2006-12-15 One of the key planks of conservative Ontario premier Mike Harris s 1990s platform was education reform Amid a sea of official reports policy documents and expert opinions on education however the voices of actual classroom teachers were difficult to find This omission is redressed in Lindsay Kerr s Between Caring Counting Through a focus group of present day secondary school teachers in Toronto Kerr delivers a passionate account of the unassailably negative changes affecting secondary education and teachers work From a critical feminist perspective and using institutional ethnography Kerr situates the problem in education squarely as a conflict between an accounting logic and an

ethic of care at the centre of education practice She exposes paradoxes inherent in education reform such as the increase of government control at the same time that government funding for education decreases She also connects educational restructuring to changes in the power relations of gender class and race across the public education system These local changes she finds do not reflect sound pedagogy but the imperatives of neoliberal globalization Counteracting despair with hope Kerr explores self reflexive suggestions for teacher educators to exercise agency in their lives and to continue to work toward a just and equitable public education system **Decolonizing Educational Assessment** Ardavan Eizadirad,2019-09-06 This book examines the history of standardized testing in Ontario leading to the current context and its impact on racialized identities particularly on Grade 3 students parents and educators Using a theoretical argument supplemented with statistical trends the author illuminates how EQAO tests are culturally and racially biased and promote a Eurocentric curriculum and way of life privileging white students and those from higher socio economic status This book spurs readers to further question the use of EQAO standardized testing and challenges us to consider alternative models which serve the needs of all students **Putting FACES on the Data** Lyn Sharratt,Michael Fullan,2012-02-03 Build the bridge from data collection to improved instruction Students are people not data How can you use assessment data to focus on reaching every student This book shows how to develop a common language for sharing all students progress with all teachers and leaders and how to use ongoing assessment to inform instruction Based on worldwide research of more than 500 educators the book presents solutions organized by Assessment Instruction Leadership Ownership The many benefits of personalizing data include increased student engagement and a positive impact on scho **Improving Large-scale Assessment in Education** Marielle Simon,Kadriye Ercikan,Michel Rousseau,2013 This book focuses on central issues that are key components of successful planning development and implementation of LSAs The book s main distinction is its focus on practice based cutting edge research This is achieved by having chapters co authored by world class researchers in collaboration with measurement practitioners **Leading Collaborative Learning** Lyn Sharratt,Beate Planche,2016-01-29 Leadership collaborative learning and student achievement discover what works Today s improving school systems require educators who intentionally collaborate and co learn in service of students to get expected results This resource rich book from experts Sharratt and Planche is a straightforward strategic path to achieving sustainable communities of deep learners Research proven inquiry techniques vignettes case studies and practical action oriented protocols help you build strong learning relationships for high impact student achievement System leaders principals and teachers learn to Integrate diverse views and perspectives Build trust and hear every voice Apply a replicable inquiry framework to leverage key resources and processes Build students cognitive interpersonal and intrapersonal skills Use Assessment in Action to improve monitor and sustain student and staff progress Build a collaborative culture through learning together Use this guide to transform your school from a place of good intentions to a center of intentional practice today Is your school ready to learn to meet student

**Standardized Testing** Arlo Kempf,2016-04-29 Based on a large scale international study of teachers in Los Angeles Chicago Ontario and New York this book illustrates the ways increased use of high stakes standardized testing is fundamentally changing education in the US and Canada with a negative overall impact on the way teachers teach and students learn Standardized testing makes understanding students strengths and weaknesses more difficult and class time spent on testing consumes scarce time and attention needed to support the success of all students further disadvantaging ELLs students with exceptionalities low income and racially minoritized students **High-Stakes Testing in Education** Theo J.H.M

Edgen,Gordon Stobart,2015-10-14 High stakes educational testing is a global phenomenon which is increasing in both scale and importance Assessments are high stakes when there are serious consequences for one or more stakeholders Historically tests have largely been used for selection or for providing a licence to practise making them high stakes for the test takers Testing is now also used for the purposes of improving standards of teaching and learning and of holding schools accountable for their students results These tests then become high stakes for teachers and schools especially when they have to meet externally imposed targets More recent has been the emergence of international comparative testing which has become high stakes for governments and policy makers as their education systems are judged in relation to the performances of other countries In this book we draw on research which examines each of these uses of high stakes testing The articles evaluate the impact of such assessments and explore the issues of value and fairness which they raise To underline the international appeal of high stakes testing the studies are drawn from Australia Africa the Caribbean Europe former Soviet republics and North America Collectively they illustrate the power of high stakes assessment in shaping for better or for worse policy making and schooling This book was originally published as a special issue of *Assessment in Education Principles Policy Practice* **Eqao Test Ready Math and Language 6** Janis Barr,2020 **EQAO Grade 6 Math & Language Test Prep!**
