Lemon-Aid Used Cars and Trucks 2012-2013 Phil Edmonston, 2012-05-19. Lemon Aid guides steer the confused and anxious buyer through the economic meltdown, unlike any other car and truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon Aid Used Cars and Trucks 2012-2013 has the answers, including more vehicles rated with some redesigned models that don't perform as well as previous iterations, downrated more roof-crash-worthiness ratings along with an expanded cross-border shopping guide, a revised summary of safety and performance-related defects that are likely to affect rated models, more helpful websites listed in the appendix, as well as an updated list of the best and worst beaters on the market, more secret warranties taken from automaker internal service bulletins and memos than ever.

How to Build Ford Restomod Street Machines Tony E. Huntimer, 2005. How to Build Ford Restomod Street Machines shows you how to modify your vintage Ford to accelerate, stop, corner, and ride as good as if not better than Detroit's best new high-performance cars. Don't subject your classic Ford to a life of garage-time trailer rides, outdated factory original performance, and the occasional Sunday cruise; build it to run hard. Author Tony Huntimer uses over 300 photos to show you how to upgrade your engine, drivetrain, chassis, suspension, body, and interior to make your ride a stand-out performer using factory and aftermarket parts. He even covers many Ford-specific upgrades, including the Granada brake swap and the popular Shelby Mod.

Lemon-Aid New Cars and Trucks 2012 Phil Edmonston, 2011-12-03. Phil Edmonston, Canada's automotive Dr. Phil, pulls no punches. He says there's never been a better time to buy a new car or truck thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide, he says Audis are beautiful to behold but hell to own, biodegradable transmissions, rodent snack wiring, and mind-boggling depreciation. Many 2011-12 automobiles have chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway. Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers. GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that killed its own electric car more than a decade ago. You can save 2,000 by cutting freight fees and administrative charges. Diesel annual urea fill-up scams cost you 300, including an 80 handling charge for 25 worth of urea.

Lemon Aid's 2011-12 Endangered Species List the Chinese Volvo, the Indian Jaguar, and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki.
