

and workshops within in India as well as abroad. In the current academic year a total of 16 teachers have attended various such workshops and seminars. Coming February four more teachers will attend a 3 days workshop at Pathways World School, Gurgaon.

Mrs. Naaz Kirmani has been appointed as IB Diploma Programme Coordinator. In this context, she attended IB DP Coordinators' training workshop held in Athens, Greece. She later also attended a seminar organized by International Association of School Libraries (IASL) in Taipei, Taiwan and presented a research paper on e-learning in school libraries.

The school invests heavily into professional development of teachers and we ensure that all this update gets translated into more effective and better teaching- learning in the classrooms.

Besides excelling at academics, and their projects, it gives us immense satisfaction that our students have also been very active in the field of co-curricular activities. Saturday is a day our students love the most. Designated as activities day, Saturdays provide opportunities to our children to pursue their hobbies ranging from dancing, taekwondo, roller-skating to drawing and painting, music, both vocal and instrumental, bird watching and other novel ideas. Our students participated in the prestigious commonwealth essay and story writing competition. Chirag Hablani of grade V received a commendation certificate for his very imaginative story. Our science students continue making their mark in Indore district science congress. Our project on conservation and preservation was adjudged as one of the best project. Manan Dosi of grade IX was selected to represent Indore district at the state level science congress held in Bhopal. Our budding athletes gave a very good account of themselves by winning 5 gold, 5 silver and 1 bronze in the Inter Division level Athletic meet held in Indore on 28th Nov. 2007. Kajol Fatima is the P.T. Usha of Choithram International winning 5 1st positions in The Divisional Meet. A total of 8 boys and girls have been selected to represent Indore Dist at the State level meet. Schools sports day, Inter-House activities and swimming gala kept our school calendar ticking. Manas Kalani, Prakhar Dubey and Shreyansh Mittal have established themselves as Table Tennis players at the state level. Rashi Bafna is already a name to reckon with in badminton.

We launched a biannual newsletter named "Rendezvous" in July this year. It chronicles all events and happening of the school and also provides an apt forum to the students to present their creative work in it. Our meteorological station equipped with all weather recording instruments is a novel geography project in which primary as well as secondary students participate with equal enthusiasm. One of these days if you fail to see weather report in your daily newspaper or on T.V., nothing to worry about. You can always give us a ring at CI for the latest weather update.

During my almost 1 ½ years interaction with parents at the school, I have found you all a very enlightened group who take their parenting role very seriously. We are aware of the great trust you have reposed in us and it will be our constant endeavour to live upto your expectations of us. Thank you very much for all the understanding and support we have been receiving from you all at the school.

## Individual Principals Presentation Speeches:

*Pitch Determination of Speech Signals* W. Hess, 2012-12-06 Pitch is the fundamental frequency FO and fundamental period TO occupies a key position in the acoustic speech signal The prosodic information of an utterance is predominantly determined by this parameter The ear is more sensitive to changes of fundamental frequency than to changes of other speech signal parameters by an order of magnitude The quality of vocoded speech is essentially influenced by the quality and faultlessness of the pitch measurement Hence the importance of this parameter necessitates using good and reliable measurement methods At first glance the task looks simple one just has to detect the fundamental frequency or period of a quasi periodic signal For a number of reasons however the task of pitch determination has to be counted among the most difficult problems in speech analysis 1 In principle speech is a nonstationary process the momentary position of the vocal tract may change abruptly at any time This leads to drastic variations in the temporal structure of the signal even between subsequent pitch periods and assuming a quasi periodic signal is often far from realistic 2 Due to the flexibility of the human vocal tract and the wide variety of voices there exist a multitude of possible temporal structures Narrow band formants at low harmonics especially at the second or third harmonic are an additional source of difficulty 3 For an arbitrary speech signal uttered by an unknown speaker the fundamental frequency can vary over a range of almost four octaves 50 to 800 Hz
