

N1 Industrial Orientation is one of the publications introducing the gateways to Engineering Studies. This course is designed to develop the skills for learners that are studying toward an artisanship in the mechanical, engineering and related technology fields and to assist them to achieve their full potential in an engineering career.

This book, with its modular competence-based approach, is aimed at assisting facilitators and learners alike. With its comprehensive understanding of the engineering environment, it assists them to achieve the outcomes set for course.

The subject matter is presented as worked examples in the problem-solving-result methodology sequence, supported by numerous and clear illustrations.

Practical activities are included throughout the book.

The authors are well known and respected in the building and civil construction fields. Their extensive experience gives an excellent base for further study, as well as a broad understanding of civil technology and the knowledge to success.
