primary education evaluate New Labour's Education policy. They draw on the findings of the latest research to discuss the impact of policies on primary school practice and on the views and experiences of primary school teachers and pupils. Current issues and initiatives are analysed to identify the extent to which policy is shaped by past events, trends and assumptions. The contributors consider the future of primary education, offer recommendations at school, LEA and national level and make suggestions for future research. *Changing Teaching and Learning in the Primary School* emphasises the central importance of taking children's perspectives into account when making changes in policy and practice.
