Securing the hearts and minds of dangerous populations is a major concern for governments across the world Governing Literate Populations shows how governmentalities have deployed education and literacy in different ways in order to protect their national social economic and geopolitical security interests Presenting a Foucauldian Genealogy of literacy and

education Kelly argues that government apparatuses strategically contain the rise of complex social forces to protect homogenous cultural values Kelly's work traces the development of the relationship between liberal governmentalities and the securitization of martial literate citizenries from its beginnings in the Enlightenment starting with Hobbes Leviathan in 1651 through to the emergence of human security in 1994 He then examines the situation in Australia from 1995-2007 investigating political statements by the Howard Government and the insurgent Rudd opposition against the backdrop of the age of terror The conclusion takes another historical cut by considering how the political uses of literacy can be located in the texts of Plato before examining how the conceptualization of literate subject as citizen of the state has come to be realized in the United Kingdom and the United States of America *Governing Literate Populations* draws on data obtained from historical texts including political and economic treatises publications by NGOs media sites government policies and archived political speeches As such it will appeal to academics researchers and postgraduate students examining education policy and the political uses of education as well as literacy education and the history of education Those with an interest in politics sociology and history will also find this work a highly informative resource *Helping Children Learn Mathematics, 5th Australian Edition* Robert Reys, Mary Lindquist, Diana V.
