D.,Mohamed Ayad,2010-06 Most young people entering adult life have little or no knowledge about personal finance By the time they acquire that knowledge it s too late to take advantage of the power of their youth They are in desperate need of a personal mentor to educate them about the financial and social issues of their adult life The Mentor is the one book that will convey years of financial knowledge and personal experience onto young adults It has many of the information we wish we had when we started our adult life It contains precise detailed information about the everyday financial issues that affect your life like Credit Scores Credit Cards Auto Leases Mortgages Taxes and many more Written by an economic layperson for the economic layperson The Mentor takes years of life experience and knowledge and combines it with information from many financial books It is written in easy to understand language to create a financial guide that young and older adults need to be smart with their money In addition it touches on some lessons for life that have come out of years living and working as a physician and patient advocate The Mentor is just what the doctor ordered for students and teachers as well as for parents and teenagers The information contained within it is very valuable and enlightening to young adults as well as many older adults I certainly wish I had such information growing up **The National Credit Card Consumer Protection Act, and the Credit Cardholder Protection Act** United States.
