Reflections: Discovering Life in the Universe

Descriptions: This questionnaire is designed as a guide checklist of whether a student has actually completed the prelecture notes for this chapter. It should be noted if they have. Keep in mind that these notes often only a brief introduction to selected topics from the chapters, intended to give interest that will lead to more in-depth study.

From [Google for small business](#): There's more to the story, starting with growth. The numbers for 2013: 100,000 small businesses in the U.S. are expected to grow.

11. The gas particles inside a lower balloon, causing it to expand, will be moving at a faster (larger) rate.

Using that model of the balloon should not depend on size, the gas particles should still move faster. Thus, think about what would happen if the gas in the balloon were hot around the burner's flame, remembering that faster gas motion means higher temperature and that the burner jet is very sensitive to temperature.
