UNIVERSITY PHYSICS VOLUME 3 Loose Leaf Edition contains Chapters 37-44. Practice makes perfect. Guided practice helps students develop into expert problem solvers. Practice makes perfect. The new 15th Edition of *University Physics with Modern Physics* draws on a wealth of data insights from hundreds of faculty and thousands of student users to address one of the biggest challenges for students in introductory physics courses: seeing patterns and making connections between problem types. Students learn to recognize when to use similar steps in solving the same problem type and develop an understanding for problem-solving approaches rather than simply plugging in an equation. This new edition addresses students' tendency to focus on the objects, situations, numbers, and questions posed in a problem rather than recognizing the underlying principle or the problem's type. New Key Concept statements at the end of worked examples address this challenge by identifying the main idea used in the solution to help students recognize the underlying concepts and strategy for the given problem. New Key Example Variation Problems appear within new Guided Practice sections and group problems by type to give students practice recognizing when problems can be solved in a similar way regardless of wording or numbers. These scaffolded problem sets help students see patterns, make connections between problems, and build confidence for tackling different problem types when exam time

comes The fully integrated problem solving approach in Mastering Physics gives students instructional support and just in time remediation as they work through problems and links all end of chapter problems directly to the eText for additional guidance Also available with Mastering Physics By combining trusted author content with digital tools and a flexible platform Mastering personalizes the learning experience and improves results for each student Now providing a fully integrated experience the eText is linked to every problem within Mastering for seamless integration between homework problems practice problems textbook worked examples and more Note You are purchasing a standalone product Mastering Physics does not come packaged with this content Students if interested in purchasing this title with Mastering Physics ask your instructor for the correct package ISBN and Course ID Instructors contact your Pearson representative for more information If you would like to purchase both the loose leaf version of the text with all chapters 1 44 and Mastering Physics search for 0135205891 9780135205891 University Physics with Modern Physics Loose Leaf Plus Mastering Physics with Pearson eText Access Card Package Package consists of 013498868X 9780134988689 Mastering Physics with Pearson eText ValuePack Access Card for University Physics with Modern Physics 0135205018 9780135205013 University Physics with Modern Physics Loose Leaf Edition
