Information Technology and Managing Quality Education Arthur Tatnall, Omponye Coach Kereteletswe, Prof. Adrie Visscher University of Twente, 2011-03-11 This book constitutes the refereed post proceedings of the 9th IFIP WG 3.7 Conference on Information Technology in Educational Management ITEM 2010 held in Kasane Botswana in July 2010 The 22 revised full papers presented were carefully reviewed and selected The papers cover a wide range of topics addressing the utilization of ICT at different levels of education from primary education to higher education such as identifying and satisfying learning needs strategical management school management information systems open source software and the relationship between ICT and organizational performance African Dynamics in a Multipolar World, 2013-05-16 Fifty years after the foundation of the OAU and the consolidation of most African states and institutions the international panorama and Africa's position in it have changed considerably The world's geopolitical and economic configuration has evolved with new actors appearing in a new period of globalization In tune with ECAS 2013 this volume proposes that the experiences appearing in Africa question dominant paradigms in terms of political practice and academic reflection and thus offer a clear challenge to the academic community The volume offers clues to answer questions such as What is the impact of the current processes of globalization for African countries and African citizens How should African Studies be engaged to gauge African dynamics both at a local and global level What interdisciplinary means and tools should be brought in to produce an epistemologically relevant view or narrative of the issues under analysis Fake Degrees and Fraudulent Credentials in Higher Education Sarah Elaine Eaton, Jamie J. Carmichael, Helen Pethrick, 2023-01-10 This book addresses an important topic in higher education credential fraud This includes but is not limited to fake degrees diploma mills admissions fraud and cheating on standardized admissions tests The book directly addresses fake and fraudulent credentials in higher education It explores transcript tampering and fraud in varsity athletics and discusses lazy practices in the higher education hiring processes that open the door for professors without proper credentials to get jobs in post secondary institutions The book also discusses how technology is being used to stop the proliferation of fake and fraudulent credentials in a variety of ways including blockchain technology *Scholars in the Marketplace. The Dilemmas of Neo-Liberal Reform at Makerere University, 1989-2005* Mahmood Mamdani, 2007 Scholars in the Marketplace is a case study of market based reforms at Uganda's Makerere University With the World Bank heralding neoliberal reform at Makerere as the model for the transformation of higher education in Africa it has implications for the whole continent At the global level the Makerere case exemplifies the fate of public universities in a market oriented and capital friendly era The Makerere reform began in the 1990s and was based on the premise that higher education is more of a private than a public good Instead of pitting the public against the private and the state against the market this book shifts the terms of the debate toward a third alternative

than explores different relations between the two The book distinguishes between privatisation and commercialisation two processes that drove the Makerere reform It argues that whereas privatisation the entry of privately sponsored students is compatible with a public university where priorities are publicly set commercialisation financial and administrative autonomy for each faculty to design a market responsive curriculum inevitably leads to a market determination of priorities in a public university The book warns against commercialisation of public universities as the subversion of public institutions for private purposes *Commonwealth Universities Yearbook* ,2002 *A Register of Admissions to King's College, Cambridge, 1945-1970* King's College (University of Cambridge),L. P. Wilkinson,King's College (University of Cambridge). King's College Association,1973 *Guide to Departments of History* ,1987 *Missions Impossible* John Waterbury,2020-10-06 A rigorous examination of higher education policymaking in the Arab world None of the momentous challenges Arab universities face is unique either in kind or degree Other societies exhibit some of the same pathologies insufficient resources high drop out rates feeble contributions to research and development inappropriate skill formation for existing job markets weak research incentive structures weak institutional autonomy and co optation into the political order But it may be that the concentration of these pathologies and their depth is what sets the Arab world apart *Missions Impossible* seeks to explain the process of policymaking in higher education in the Arab world a process that is shaped by the region s politics of autocratic rule Higher education in the Arab world is directly linked to crises in economic growth social inequality and as a result regime survival If unsuccessful higher education could be the catalyst to regime collapse If successful it could be the catalyst to sustained growth and innovation but that too could unleash forces that the region s autocrats are unable to control Leaders are risk averse and therefore implement policies that tame the universities politically but in the process sap their capabilities for innovation and knowledge creation The result is sub optimal and argues John Waterbury in this thought provoking study unsustainable Skillfully integrating international debates on higher education with rich and empirically informed analysis of the governance and finance of higher education in the Arab world today *Missions Impossible* explores and dissects the manifold dilemmas that lie at the heart of educational reform and examines possible paths forward **African Journal of Political Science** ,2004
