

DESCRIPTION

Speakers used with amplified instruments are subjected to the severest possible operational and handling conditions. Even so, failure of a speaker in live performance is intolerable. The SRO/18 musical instrument speaker combines reliability with high efficiency. The powerful sixteen-pound magnetic structure combined with the edge-wound aluminum voice coil results in efficiency unmatched in other so-called "high power" speakers. In fact, the SRO/18 produces more acoustic power with a 100-watt input than most "high power" speakers at 200 watts input.

What about reliability? Look at all the goodies: super-rigid eight spoke diecast aluminum frame; nonfatiguing cloth cone suspension; heavy duty, improved design curvilinear cone to eliminate breakup and edge-hole effects; high heat resistant laminated coil form; new heat dissipating back cover; and many more techniques to provide performance you can count on.

There's more! The SRO/18 represents flexibility unmatched anywhere. Installed in a correct horn or reflex load, it not only provides the deep gut sound required for bass guitar, but a smooth treble that produces startling performance for either lead guitar or F.A. That's having your cake and eating it, too!

Power? Well, we rate the brute at 100-watts continuous sine wave; but what does all this power do for the performer? In a proper vented enclosure the 100 watts is capable of flexing your eardrums with 120 dB of sound at four feet! Use a properly designed horn load and its capability goes up at least 3 dB overall and up to 10 dB at

bass frequencies. The same as doubling your amplifier power. Incidentally, we don't recommend that you stand in such a sound field — permanent ear damage may result!

What's the result of all this? The SRO/18 will turn you on!
