

How to do it

Lift the bowl and revolve it until it drops into its correct position. The support ring of the bowl serves as handle as well as base.

Guide the spring arm towards the centre of the bowl and press the journal pin into the roller. To change position of the roller, guide arm towards the centre of the bowl and slacken the screw.

Mount the bowl knife like this. For certain jobs like creaming butter do not insert knife until texture is smooth.

The roller is adjustable for different positions according to the quantity to be prepared. The roller should be locked as near to the rim of the bowl as possible without allowing the mixture to pile up in front of the roller. The speed automatically adapts itself to the consistence of the mixture in the bowl. N. B.—For stirring berries and mashing potatoes, do not use the roller.

Scraper

The handy little scraper will help you to empty the bowl and clean the roller and the bowl knife. After emptying the bowl, place the scraper towards the inside of the bowl, start the machine and move the scraper towards the bottom, thus to collect the remnants in the middle at the bottom of the bowl.
