Second Edition continues to be the best resource for viewing building construction and its systems through the lens of sustainability. As a practicing architect and an interior designer, author Lisa M. Tucker covers all systems including structural, mechanical, electrical, and lighting, plumbing, and interior building systems as they relate to sustainability and interior design. The technical knowledge and vocabulary presented in the text allows interior designers, architects, engineers, and contractors to communicate effectively with each other while collaborating on projects. This new edition, produced in an easier-to-use format, contains the latest information on LEED, ADA, Net Zero construction, and sustainable construction practices. **Study**
