Singapore, East Asia-Pacific region, Cambodia ,1986 Studying Elites Using Qualitative Methods Rosanna Hertz,Jonathan B. Imber,1995-08-03 Few social researchers study elites because elites by their nature are very difficult to access The contributors to this volume provide valuable insights on how researchers can successfully penetrate elite settings As the authors reflect on their experiences they provide constructive advice as well as cautionary tales about how they learned to maneuver and become accepted in a world that is often closed to them This book s coverage includes three broad research domains business elites professional elites and community and political elites Although the studies focus on qualitative methodology even researchers who emphasize more quantitative methods will benefit from this volume s thoughtful observations on how researchers gather data construct interview strategies write about their subjects and experience the research process A wide range of researchers in organizational studies sociology political science and many other fields will find this volume to be an important guide to the many subtle and elusive features of conducting successful research with these groups *An Uncertain Trumpet* Kenneth Finlayson,2001-07-30 Faced with severe budgetary constraints a radically reduced force structure and a crippling intellectual dogmatism the American Infantry struggled throughout the interwar years to modernize its doctrine Finlayson examines these difficulties beginning with an overview of the experiences of the primary combatants of the First World War comparing their battlefield doctrines with that of the American Expeditionary Force The brief American appearance on the battlefield did much to shape the convictions of those men assigned the task of developing doctrine after the war The findings of the post World War I Superior Board provide valuable insight into how institutional conservatism and the dogmatic approach to new ideas that existed among senior Army leaders stymied possible doctrinal advances The Army would suffer greatly in the post war demobilization and the subsequent ravages of the Great Depression With little money and few soldiers spread around far flung posts little advancement in terms of doctrinal development was possible As the likelihood of war became more imminent in the 1930s a concerted effort to modernize was made however the magnitude of the task made success virtually impossible a situation that was evident in the Infantry s poor performance in the early battles of the war The U S entry into World war II would unfortunately find the infantry branch only partially prepared for the battle field of 1942 **The National Guardsman** ,1976 The Waffen SS George H. Stein,1966 This landmark study first published by Cornell University Press in 1966 shows how Hitler s elite army grew from a praetorian guard of barely 28 000 men at the beginning of the Second World War to a combat hardened army of more than 500 000 in 1945 George H Stein examines in detail the structure and organization of the Waffen SS and describes the rigid personnel selection and intensive physical military and ideological training that helped to create the tough and dedicated cadre around which the larger force of the later war years was built **Hitler's Children** Gerhard Rempel,2015-07-15 Eighty two percent of German boys and girls between the ages of ten and eighteen belonged to Hitlerjugend Hitler Youth or one of its affiliates by the time membership became fully compulsory in 1939 These

adolescents were recognized by the SS as an exclusive cadre of Nazi zealots as a source of future recruits to its own elite ranks which were made up largely of men under the age of thirty. In this book Gerhard Rempel examines the special relationship that developed between these two most youthful and dynamic branches of the National Socialist movement and concludes that the coalition gave Nazism much of its passionate energy and contributed greatly to its initial political and military success. Rempel centers his analysis of the HJ-SS relationship on two branches of the Hitler Youth. The first of these, the Patrol Service, was established as a juvenile police force to pursue ideological and social deviants, political opponents, and non-conformists within the HJ and among German youth at large. Under SS influence, however, membership in the organization became a preliminary apprenticeship for boys who would go on to be agents and soldiers in such SS-controlled units as the Gestapo and Death's Head Formations. The second, the Land Service, was created by the HJ to encourage a return to farm living. But this battle to reverse the flight from the land took on military significance as the SS sought to use the Land Service to create defense peasants who would provide a reliable food supply while defending the Fatherland. The transformation of the Patrol and Land services like that of the HJ generally served SS ends at the same time that it secured for the Nazi regime the practical and ideological support of Germany's youth. By fostering in the Hitler Youth a sense of national community, the young the SS believed it could convert the popular movement of Nazism into a protomilitary program to produce ideologically pure and committed soldiers and leaders who would keep the movement young and vital.
