Laval on neoliberalism Agamben on sovereignty Hardt and Negri on globalisation and others including Foucault Deleuze and Guattari and Louis Dumont The work seeks to answer a question posed by both Foucault and Agamben that is given the growing primacy of the arts of government what is the juridical form and theory of sovereignty that is able to sustain and found this primacy It is argued that this question can be understood by reference to the shift from a social or public contract that was understood to be the foundation of society to a society that is constituted by consent private agreement and contract In addition the book examines the juridical concepts of the rule of law and sovereignty Commencing with the Festina scandal of 1998 the Spanish case of Operaci n Puerto and concluding with the fall from grace of the American cyclist Lance Armstrong in 2012 the principal processes examined include The increasing crossing of the borders between different legal regimes whether supranational or simply particularised and with it the erosion of what we knew as state sovereignty and constitutionalism The increasing use of judgment achieved through the media and how this arrives at new configurations of moral panic and scapegoating The creation of a need for rapid outcomes at the expense of the modernist value or version of the rule of law The increasing use of new and alternative methods of guilt proof and ultra legal detection Routledge Handbook of Drugs and Sport Verner Møller,Ivan Waddington,John M.
