Gardaphé, 1996 In the first major critical reading of Italian American narrative literature in two decades Fred L Gardaph presents an interpretive overview of Italian American literary history Examining works from the turn of the twentieth century to the present he develops a new perspective variously historical philosophical

and cultural by which American writers of Italian descent can be read increasing the discursive power of an ethnic literature that has received too little serious critical attention Gardaph draws on Vico's concept of history as well as the work of Gramsci to establish a culture specific approach to reading Italian American literature He begins his historical reading with narratives informed by oral traditions primarily autobiography and autobiographical fiction written by immigrants From these earliest social realist narratives Gardaph traces the evolution of this literature through tales of the godfather and the mafia the reinvention of ethnicity in works by Helen Barolini Tina DeRosa and Carole Maso the move beyond ethnicity in fiction by Don DeLillo and Gilbert Sorrentino to the short fiction of Mary Caponegro which points to a new direction in Italian American writing The result is both an ethnography of Italian American narrative and a model for reading the signs that mark the self fashioning inherent in literary and cultural production *Italian Signs American Streets* promises to become a landmark in the understanding of literature and culture produced by Italian Americans It will be of interest not only to students critics and scholars of this ethnic experience but also to those concerned with American literature in general and the place of immigrant and ethnic literatures within that wide framework

*The Italian American Heritage* Pellegrino A D'Acerno, 2021-12-12 First published in 1999 The many available scholarly works on Italian Americans are perhaps of little practical help to the undergraduate or high school student who needs background information when reading contemporary fiction with Italian characters watching films that require a familiarity with Italian Americans or looking at works of art that can be fully appreciated only if one understands Italian culture This basic reference work for non specialists and students offers quick insights and essential easy to grasp information on Italian American contributions to American art music literature motion pictures and cultural life This rich legacy is examined in a collection of original essays that include portrayals of Italian characters in the films of Francis Coppola Italian American poetry the art of Frank Stella the music of Frank Zappa a survey of Italian folk customs and an analysis of the evolution of Italian American biography Comprising 22 lengthy essays written specifically for this volume the book identifies what is uniquely Italian in American life and examines how Italian customs traditions social mores and cultural antecedents have wrought their influence on the American character Filled with insights observations and ethnic facts and fictions this volume should prove to be a valuable source of information for scholars researchers and students interested in pinpointing and examining the cultural intellectual and social influence of Italian immigrants and their successors

*The Enchanted Boot* Nancy L. Canepa, 2022-11-29 A representative selection of tales from the Italian fairy tale tradition translated into English This comprehensive collection of Italian tales in English encourages a revisitation of the fairy tale canon in light of some of the most fascinating material that has often been excluded from it In the United States we tend to associate fairy tales with children and are most familiar with the tales of the Brothers Grimm Hans Christian Anderson and Disney But the first literary fairy tales appeared in Renaissance Italy and long before the Grimms there was already a rich and sophisticated tradition that included hundreds of tales including many of those

today considered classic The authors featured in this volume have over the centuries explored and interrogated the intersections between elite and popular cultures and oral and literary narratives just as they have investigated the ways in which fairy tales have been and continue to be rewritten as expressions of both collective identities and individual sensibilities The fairy tale in its Italian incarnations provides a striking example of how this genre is a potent vehicle for expressing cultural aspirations and anxieties as well as for imagining different ways of narrating shared futures The Oxford Companion to Fairy Tales Jack Zipes, 2015 This Oxford companion provides an authoritative reference source for fairy tales exploring the tales themselves both ancient and modern the writers who wrote and reworked them and related topics such as film art opera and even advertising

**On Writers and Writing** John Gardner, 2009-04-07 This compilation of essays and reviews gathered posthumously from the New York Times Book Review and other publications solidifies John Gardner's legacy as a consummate teacher and controversial critic with a provocative sense of humor Writing about his fellow craftsmen John Gardner offers piercing insights into those whose works he admired and those whose works he didn't In exacting unapologetic evaluations upon such writers as Saul Bellow Vladimir Nabokov Philip Roth John Cheever Larry Woiwode Joyce Carol Oates and John Updike Gardner separates genuine fiction from fakery careful not to spare his own writings in the process and in doing so he displays his influences and wide reaching observations of the literary life Refreshingly unpredictable and self aware this collection lays bare the core qualities of lasting fiction and is essential reading for anyone interested in American literature

Grundtvig, 2017-07-05 Few recent writers have been as interested in the cross over between texts and visual art as Italo Calvino 1923-85 Involved for most of his life in the publishing industry he took as much interest in the visual as in the textual aspects of his own and other writers' books In this volume twenty international Calvino experts including Barenghi Battistini Belpoliti Hofstadter Ricci Scarpa and others consider the many facets of the interplay between the visual and textual in Calvino's works from the use of colours in his fiction to the influence of cartoons from the graphic qualities of the book covers themselves to the significance of photography and landscape in his fiction and non-fiction The volume is appropriately illustrated with images evoked by Calvino's major texts      *Charlemagne in Italy* Jane E.
