Claiming Her Dignity L. Juliana M. Claassens, 2016-10-06 To be human means to resist dehumanization In the darkest periods of human history men and women have risen up and in many different voices said this one thing Do not treat me like this Treat me like the human being that I am *Claiming Her Dignity* explores a number of stories from the Old Testament in which women in a variety of creative ways resist the violence of war rape heterarchy and poverty Amid the life denying circumstances that seek to attack violate and destroy the bodies and psyches of women men and children the women featured in this book absolutely refuse to succumb to the explicit and at times subtle but no less harmful manifestations of violence that they face

Performing Virginity and Testing Chastity in the Middle Ages Kathleen Coyne Kelly, 2002-11 This study presents a compelling and provocative study of virginity which challenges the belief that female virginity can be reliably and unambiguously defined tested and verified

Cultures of Devotion Frank Graziano, 2007 Spanish America has produced numerous folk saints venerated figures regarded as miraculous but not officially recognized by the Catholic Church Some of these have huge national cults with hundreds perhaps millions of devotees In this book Frank Graziano provides the first overview in any language of these saints offering in depth studies of the beliefs rituals and devotions surrounding seven representative figures These case studies are illuminated by comparisons to some hundred additional saints from contemporary Spanish America Among the six primary cases are Difunta Correa at whose shrines devotees offer bottles of water and used auto parts in commemoration of her tragic death in the Argentinean desert Gaucho Gil is only one of many gaucho saints whose characteristic narrative involves political injustice and Robin Hood crimes on behalf of the exploited people The widespread cult of the Mexican saint Nino Fidencio is based on faith healing performed by devotees who channel his powers Nino Compadrito is an elegantly dressed skeleton of a child whose miraculous powers are derived in part from an Andean belief in the power of the skull of one who has suffered a tragic death Graziano draws upon site visits and extensive interviews with devotees archival material media reports and documentaries to produce vivid portraits of these fascinating popular movements In the process he sheds new light on the often fraught relationship between orthodox Catholicism and folk beliefs and on an important and little studied facet of the dynamic culture of contemporary Spanish America

Sexual Assault in Canada Elizabeth A. Sheehy, 2012-09-29 Sexual Assault in

Canada is the first English language book in almost two decades to assess the state of sexual assault law and legal practice in Canada. Gathering together feminist scholars, lawyers, activists, and policy makers, it presents a picture of the difficult issues that Canadian women face when reporting and prosecuting sexual violence. The volume addresses many themes, including the systematic undermining of women who have been sexually assaulted, the experiences of marginalized women, and the role of women's activism. It explores sexual assault in various contexts, including professional sports, the doctor-patient relationship, and residential schools. And it highlights the influence of certain players in the reporting and litigation of sexual violence, including health care providers, social workers, police, lawyers, and judges. *Sexual Assault in Canada* provides both a multi-faceted assessment of the progress of feminist reforms to Canadian sexual assault law and practice and articulates a myriad of new ideas, proposed changes to law, and inspired activist strategies. This book was created to celebrate the tenth anniversary of Jane Doe's remarkable legal victory against the Toronto police for sex discrimination in the policing of rape and for negligence in failing to warn her of a serial rapist. The case made legal history and motivated a new generation of feminist activists. This book honours her pioneering work by reflecting on how law, legal practice, and activism have evolved over the past decade and where feminist research and reform should lead in the years to come. Published in English.

Cinema, Black Suffering, and Theodicy Shayne Lee, 2022-01-26. This book explicates how many films intersect black suffering and God talk in ways that instantiate secular limitations to divine efficacy. The book's concept of a modern God introduces a new method of analysis that reimagines theodical discourses as mechanisms of modern identities and filmmakers as skillful exegetes who recalibrate divine attributes to the sense-making cadences of their contemporaries. Shayne Lee demonstrates how cinematic theodicy navigates a happy medium between affirming divine benevolence and sidelining supernatural activity and that filmic characters like their real-world counterparts are quite clever at triangulating rationality, faith, and tragedy. In addition to positing synergistic links between theodicy and secularity, Lee offers critical insights into cinema's relevance to the sociology of evil by specifying how films code and narrate malevolent actions and outcomes, demarcate clear lines of distinction between victims and perpetrators, clarify societal dynamics driving inequality and oppression, and transform individual episodes of suffering into collective and memorialized identities of trauma. This book illuminates how filmic treatments of theodicy construct evil and suffering in calculated ways that connect specific acts, effects, and institutions to greater structures of meaning.

The Oxford Handbook of Gender and Conflict Fionnuala Ní Aoláin, Naomi R. Cahn, Dina Francesca Haynes, Nahla Valji, 2018. The authors focus on the multidimensionality of gender in conflict, yet they also prioritise the experience of women given both the changing nature of war and the historical de-emphasis on women's experiences.

Civilians and Warfare in World History Nicola Foote, Nadya Williams, 2017-08-23. This book explores the role played by civilians in shaping the outcomes of military combat across time and place. This volume explores the contributions civilians have made to warfare in case studies that range from ancient Europe to contemporary

Africa and Latin America Building on philosophical and legal scholarship it explores the blurred boundary between combatant and civilian in different historical contexts and examines how the absence of clear demarcations shapes civilian strategic positioning and impacts civilian vulnerability to military targeting and massacre The book argues that engagement with the blurred boundaries between combatant and non combatant both advance the key analytical questions that underpin the historical literature on civilians and underline the centrality of civilians to a full understanding of warfare The volume provides new insight into why civilian death and suffering has been so common despite widespread beliefs embedded in legal and military codes across time and place that killing civilians is wrong Ultimately the case studies in the book show that civilians while always victims of war were nevertheless often able to become empowered agents in defending their own lives and impacting the outcomes of wars By highlighting civilian military agency and broadening the sense of which actors affect strategic outcomes the book also contributes to a richer understanding of war itself This book will be of much interest to students of military studies international history international relations and war and conflict studies

Greek and Roman Painting and the Digital Humanities Marie-Claire Beaulieu, Valérie Toillon, 2021-11-29 This volume is a groundbreaking discussion of the role of digital media in research on ancient painting and a deep reflection on the effectiveness of digital media in opening the field to new audiences The study of classical art always oscillates between archaeology and classics between the study of ancient texts and archaeological material For this reason it is often difficult to collect all the data to have access to both types of information on an equal basis The increasing development of digital collections and databases dedicated to both archaeological material and ancient texts is a direct response to this problem The book's central theme is the role of the digital humanities especially digital collections such as the Digital Milliet

in the study of ancient Greek and Roman painting Part 1 focuses on the transition between the original print version of the Recueil Milliet and its digital incarnation Part 2 addresses the application of digital tools to the analysis of ancient art Part 3 focuses on ancient wall painting The book will be of interest to scholars working in art history classics archaeology and digital humanities

English folklore Yet who was he really In this intriguing book Lesley Coote reexamines the early tales about Robin in light of the stories both English and French that have grown up around them stories with which they shared many elements of form and meaning In the process she returns to questions such as where did Robin come from and what did these stories mean The Robin who reveals himself is as spiritual as he is secular and as much an insider as he is an outlaw And in the context of current debates about national identity and Britain's relationship with the wider world Robin emerges to be as European as he is English or perhaps as Coote suggests that is precisely the quality which made him fundamentally English all along

"Non-canonical" Religious Texts in Early Judaism and Early Christianity Lee Martin McDonald, James H.

Charlesworth, 2012-03-29 This volume draws attention to ancient religious texts especially the so called non canonical texts by focusing on how they were used or functioned in Early Judaism and Early Christianity The contributors are biblical scholars who have chosen one or more Jewish or Christian apocryphal or pseudepigraphical texts with the aim of describing their ancient functions in their emerging social settings These show the fluidity of the notion of scripture in the early centuries of the Church and in Judaism of late antiquity but they also show the value of examining the ancient religious texts that were not included in the Jewish or Christian biblical canons These chapters show that there is much that can be learned from examining and comparing these texts with canonical literature and evaluating them in their social context No ancient text was created in a vacuum and the non canonical writings aid in our interpretation not only of many canonical writings but also shed considerable light on the context of both early Judaism and early Christianity
