Gods of the Germanic Peoples 1 GardenStone,2014-12-04 *The Germanic Tribes, the Gods and the German Far Right Today* Georg Schuppener,2021-12-30 The Germanic Tribes the Gods and the German Far Right Today deals with the question of how right wing extremists in German speaking countries adapt and adopt elements from the history culture and mythology of the Germanic tribes It provides the first in depth study of the adoption of these historical motifs by right wing extremists Using linguistic and historical perspectives and drawing on both publicly accessible material and sources gathered by the intelligence services the book delineates the influence and impact of Germanic tribal history and culture within extremist subcultures The author demonstrates that references to the Germanic peoples their history culture and mythology are even more widespread among contemporary right wing extremists than they were in the interwar National Socialist era This book will be of interest to researchers of right wing extremism German politics and social movements *Illustrated Lexicon of Germanic Deities* Gunivortus Goos,2022 *Gods of the Ancient Northmen* Georges Dumézil,1977-12 *Gods of the Germanic Peoples 2* Gardenstone,2014-12-04 This book containing two volumes offers information about over 270 deities of the Germanic peoples and covers the time from the Roman Era the first centuries CE in which the Roman Empire enfolded large parts of the territories of Europe where Germanic peoples lived up until the Viking Age The scientific information is accompanied with many new myths and a rich amount of illustrations All together it presents a much more vivid presentation than solely dry scholarly information could offer *The Handbook of Religions in Ancient Europe* Lisbeth Bredholt Christensen,Olav Hammer,David Warburton,2014-09-11 The Handbook of Religions in Ancient Europe surveys the major religious currents of Europe before Christianity the first continental religion with hegemonic ambition wiped out most local religions The evidence whether archaeological or written is notoriously difficult to interpret and the variety of religions documented by the sources and the range of languages used are bewildering The Handbook brings together leading authorities on pre Christian religious history to provide a state of the art survey The first section of the book covers the Prehistoric period from the Paleolithic to the Bronze Age The second section covers the period since writing systems began Ranging across the Mediterranean and Northern Celtic and Slavic Europe the essays assess the archaeological and textual evidence Dispersed archaeological remains and biased outside sources constitute our main sources of information so the complex task of interpreting these traces is explained for each case The Handbook also aims to highlight the plurality of religion in ancient Europe the many ways in which it is expressed notably in discourse action organization and material culture how it is produced and maintained by different people with different interests how communities always connect with or disassociate from adjunct communities and how their beliefs and rituals are shaped by these relationships The Handbook will be invaluable to anyone interested in ancient History and also to scholars and students of Religion Anthropology Archaeology and Classical Studies *The New Schaff-Herzog Encyclopedia of Religious Knowledge* Johann Jakob

Herzog, Albert Hauck, Samuel Macauley Jackson, Charles Colebrook Sherman, George William Gilmore, 1909 **The Mercury-Woden Complex** Gardenstone, 2011 It was about two thousand years ago the Roman historian Tacitus reported the Germanics venerated Mercury above all He meant a Germanic God he equated with Mercury Because Tacitus didn't denominate the name of that God it had to be interpreted Many centuries later scholars widely agreed that the name of this God must be Woden Today that opinion is still taken as evidence This assumption is assayed here on the basis of available primary sources the result suggests serious doubts about the entrenched view This book requires the willingness to leave comfortable and well traveled often repeated views to examine unbiasedly apparent self evidence facts Library of Congress Subject Headings Library of Congress, 2006 **The Uniqueness of Western Civilization** Ricardo Duchesne, 2011-02-07 This extensively researched book argues that the development of a libertarian culture was an indispensable component of the rise of the West The roots of the West's superior intellectual and artistic creativity should be traced back to the aristocratic warlike culture of Indo European speakers Among the many fascinating topics discussed are the ascendancy of multicultural historians and the degradation of European history China's ecological endowments and imperial windfalls military revolutions in Europe 1300 1800 the science and chivalry of Henry the Navigator Judaism and its contribution to Western rationalism the cultural richness of Max Weber versus the intellectual poverty of Pomeranz Wong Goldstone Goody and A G Frank change without progress in the East Hegel's Phenomenology of the Western Spirit Nietzsche and the education of the Homeric Greeks Kojève's master slave dialectic and the Western state of nature Christian virtues and German aristocratic expansionism *Library of Congress Subject Headings* Library of Congress. Cataloging Policy and Support Office, 2009 *Germanic Mythology* Hasty History, Bernard Hayes, 2018-06-25 In this informational guide the author will take you by the hand and educate you about the various gods and goddesses the Germanic peoples of medieval times and before worshipped The subtle differences and the overlap with Nordic gods are worth studying In this guide you will find explanations and dramas of legendary creatures and worship customs as well as Paganism death rituals and historical tales from Western Europe Gods like Wodan Hlidskjalf and the legend of Valhalla More background on Baldur Ziu Tyr Fenrir and other gods The complete story of Heimdall Loki and Nerthus mother Earth Details about beautiful goddesses like Frigga and Freya Get into the depths of the myths and understand the dramatic complicated relationships and superpowers of the different gods from the underworld the heavens and the earth Get a grip of what people believed back then and how it all ties in to some of the customs or fictional stories we tell in today's age Add this book to cart now **The Roman Auxiliary Units of Britain** Simon Turney, 2025-02-10 This comprehensive work details the auxiliary units of Roman Britain covering their histories movements campaigns and notable members The majority of work on Roman Britain's military focuses on the legions with much less attention paid to the auxilia even though the latter formed the vast majority of the manpower The auxiliary units were drawn from all over the Empire and provided both infantry and cavalry units many of which provided

specialisms that the legions lacked For example the Cohors I Hamiorum Sagittariorum were a cohort of archers from Syria stationed at Carvoran fort on Hadrian s Wall Simon Turney following decades of research presents this work referencing every one of the fifty nine auxiliary units identified in Britain For each there is a unit history detailing their movements involvement in campaigns and anything noteworthy This is followed by a set of lists detailing known attested members of the unit and any inscriptions that mention them Each entry is also accompanied by photographs and or maps including the sites the unit occupied tombstones images inscriptions and so on This is the finest most up to date reference available for the auxiliary units of Britain
