**Gods of the Germanic Peoples 1** GardenStone,2014-12-04      **The Germanic Tribes, the Gods and the German Far Right Today** Georg Schuppener,2021-12-30 The Germanic Tribes the Gods and the German Far Right Today deals with the question of how right wing extremists in German speaking countries adapt and adopt elements from the history culture and mythology of the Germanic tribes It provides the first in depth study of the adoption of these historical motifs by right wing extremists Using linguistic and historical perspectives and drawing on both publicly accessible material and sources gathered by the intelligence services the book delineates the influence and impact of Germanic tribal history and culture within extremist subcultures The author demonstrates that references to the Germanic peoples their history culture and mythology are even more widespread among contemporary right wing extremists than they were in the interwar National Socialist era This book will be of interest to researchers of right wing extremism German politics and social movements

**Goddess Holle** Gunivortus Goos,2019-09-30 After the first German edition in 2001 and a second edition in 2006 which was in 2011 also published in English there is now a very heavily revised 3rd edition of the book Goddess Holle Even though the basic framework of the 2nd edition has been retained not only are minor and major errors corrected but all chapters the book calls them paths are supplemented with many additional new parts in varying degrees This new book has therefore become considerably more extensive in quantity there are about 182 pages more than in the 2nd edition it contains more fairy tales many more folktales more hiking trails more poetry and more plants that have a connection to Holle In addition the chapter about Customs and Traditional Folk Knowledge has been significantly changed and supplemented and so is the chapter Researchers and their Research in which the latest available research sources have been incorporated and theories theses etc have also been added that were not in the previous edition To the concluding path Culinary delights with Frau Holle also were quite a few recipes added The many illustrations of which about 115 in color including 14 maps form a significant extension as well to the previous edition      [The German Classics of the 19th and 20th Century \(Vol. 1-14\)](#)

**Divine Messengers** Hannelore Goos, 2019-03-22 In western astrology we use of course Roman names for the planetary symbols but when you look on the mythological explanations you usually get Greek mythology to explain them Doesn't count NOMEN EST OMEN Searching the mythological rests of the original deities Mercury Venus Mars Jupiter and Saturnus it was necessary to dive deeply into the history of theology because the well known literates like Ovid Virgil and Lucretius preferred to retell Greek myths instead of preserving their own roots In the last centuries until about 1900 these authors were taken as sources for theological research and there was no discrimination between literature poetry and original Italian tradition Perspective and moral view of the 19th century added more misinterpretations and made the knowledge of Roman religion almost vanish Existing rests are collected in this book and compared with the actual astrological symbols So the reader can recognize how much of Roman ideas can be found in the planetary symbols nowadays Simultaneously new points of view are opened for the interpretation of Mercury Venus Mars Jupiter and Saturn

Sapientologist *Odin's Ways* Annette Lassen, 2021-12-24 This book is about the Old Norse god Odin It includes references to all occurrences of Odin in the Old Norse Icelandic texts including Saxo's *Gesta Danorum* the eddic poems Snorri's *Edda* and *Ynglinga saga* and analyses the high medieval reception and literary representations of Odin rather than the religious character of the god This is the only existing study of Odin in all the Old Norse Icelandic texts and applies a contextual method the different guises of Odin are studied on the basis of the various textual contexts and on their background in the literary and Christian intellectual milieu of the time Contrary to existing studies this method is non reductive in that it does not aim at providing a synthesis about Odin's original nature on the basis of the differing textual uses of Odin in the Middle Ages The book argues that the perceived complexity of Odin often highlighted in research is first and foremost a function of the complex textual material spanning a wide variety of genres each with its particular literary conventions and of the reception of Odin in early modern and modern mythological studies **Arminius; a history of the German people ...**
