Tribes and Global Jihadism Virginie Collombier,Olivier Roy,2018-01-15 Across the Muslim world from Iraq and Yemen to Egypt and the Sahel new alliances have been forged between the latest wave of violent Islamist groups including Islamic State and Boko Haram and local tribes But can one now speak of a direct link between tribalism and jihadism and how analytically useful might it be Tribes are traditionally thought to resist all encroachments upon their sovereignty whether by the state or other local actors from below yet by joining global organizations such as Islamic State are they not rejecting the idea of the state from above This triangular relationship is key to understanding instances of mass radicalization when entire communities forge alliances with jihadi groups for reasons of self interest self preservation or religious fervor If Algeria s FIS or Turkey s AKP once represented the Islamization of nationalism have we now entered a new era the tribalization of globalization

Numeracy in Authentic Contexts Maura Sellars,2017-10-25 This book is based on the notion that there are many ways in which mathematics learning can be achieved for students and that not all of them are focused on the mathematics classroom It explores the foundational numeracy principles of the non mathematical subject areas and aligns these to the Australian numeracy learning continuum It demonstrates in detail the extent to which numeracy competencies underpin successful learning in all the subject areas of the curricula It validates a focus of developing numeracy competencies through learning in the arts science and other discipline areas with which school students to engage with in order develop holistically but which are not subjected to national assessment practices It is developed around the notion of praxis putting theory into practice in order to respond to the urgent need for students to be supported in their efforts to increase their numeracy capabilities in a world where extensive amounts of new information are often presented in graphical or data based formats Additionally it offers

perspectives on developing all students capacities to become numerate in school contexts and presents inclusive differentiated lesson examples as an alternative way of exploring numeracy in the context of teaching and learning in real world classroom contexts *Teaching and Learning Through the Holocaust* Anthony Pellegrino,Jeffrey Parker,2022-12-16 This book serves as a critical resource for educators across various roles and contexts who are interested in Holocaust education that is both historically sound and practically relevant As a collection it pulls together a diverse group of scholars to share their research and experiences The volume endeavors to address topics including the nature and purpose of Holocaust education how our understanding of the Holocaust has changed and resources we can use with learners These themes are consistent across the chapters making for a comprehensive exploration of learning through the Holocaust today and in the future The World Factbook ,2006 **Proceedings International Conference on Intercultural**
