Going for the Gold Mary R. Bast, Ph.d., Mary R Bast Ph D, 2014-10-25 Alchemy may seem a grandiose metaphor for transformational coaching but alchemists believe everything will become more advanced given time the Great Work is simply to speed up that process So why not imagine our Great Work is to help accelerate our clients transformation Now envision the Enneagram as a dynamic vessel within which alchemical processes take place This small book describes nine elements of alchemy and their Enneagram parallels Each element is also vital to the transformation process in all nine Acorns: Windows High-Tide Foghat Joshua Morris, 2013-01-23 Acorns delineates the future of humanity as a reunification of intellect with the Deep Self Having chosen to focus upon ego established securely by the time of Christ much more beta brain wave development will destroy our species and others which process has already begun We create our own realities through beliefs intents and desires and we were in and out of probabilities constantly Feelings follow beliefs not the other way around

Self-Therapy Jonathan Dil,2022-02-24 Haruki Murakami a global literary phenomenon has said that he started writing fiction as a means of self therapy What he has not discussed as much is what he needed self therapy for This book argues that by understanding more about why Murakami writes and by linking this with the question of how he writes readers can better understand what he writes Murakami s fiction in other words can be read as a search for self therapy In five chapters which explore Murakami s fourteen novels to date this book argues that there are four prominent therapeutic threads woven through Murakami s fiction that can be traced back to his personal traumas most notably Murakami s falling out with his late father and the death of a former girlfriend and which have also transcended them in significant ways as they have been transformed into literary fiction The first thread looks at the way melancholia must be worked through for mourning to occur and healing to happen the second thread looks at how symbolic acts of sacrifice can help to heal intergenerational trauma the third thread looks at the way people with avoidant attachment styles can begin to open themselves up to love again the fourth thread looks at how individuation can manifest as a response to nihilism Meticulously researched and written with sensitivity the result is a sophisticated exploration of Murakami s published novels as an evolving therapeutic project that will be of great value to all scholars of Japanese literature and culture Coaching with Meaning and Spirituality Peter Hyson,2013 Coaching with Meaning and Spirituality aims to help coaches with those occasions where a clients search for meaning needs to be addressed and explored Working with spirituality in a coaching context can be difficult and unfamiliar for coaches but in this book Peter Hyson provides a vocabulary to facilitate this exploration and ultimately to help coaches to address their clients doubts and worries especially in an economic climate where old certainties may be lost Part I of this text argues the case for why coaches should be willing and able to explore areas of meaning and spirituality with coachees It provides definitions and terminology Part II uses case studies and activities to help coaches apply these definitions to specific contexts that we might face as coaches The final part provides some deeper skill development and extended resources This

book looks at motivation legacy drive to succeed increasing profit maintaining work life balance stress breakdown and crises and qualities of effective leadership It will be especially useful for professional coaches both the experienced and the relatively new who coach in a variety of contexts It aims to stimulate a new area of discussion across the wider coaching profession
