of Family Wealth offers thoughtful holistic planning to ensure that your wealth remains a positive force for your family. While today's families have become global and the world has become smaller and more mobile, we have not yet become immune to the problems wealth poses to the family unit. This book provides authoritative guidance on family wealth management with an emphasis on both family and wealth. Global taxation regimes, changing bank secrecy laws, asset protection, and other critical issues are examined in depth to assist wealth owners in planning, and the discussion includes details on the essential tools that aid in the execution of any wealth management strategy. More than a simple financial planning guide, this book also delves into the psychology of wealth and the effect it has on different family members. Wealth destroys families every day, and smart management means maintaining the health of the family as much as it means maintaining and expanding wealth. Family wealth brings advantages, but it also carries a potential for destruction. Wealth owners have a responsibility to their families and to themselves, and this book provides the critical guidance you need to get it right, whether you are part of a wealth-owning family or are an advisor to wealth-owning families. Learn how careful planning can prevent family strife. Protect assets from risks ranging from divorce to political upheaval. Explore the many tools that facilitate secure wealth management. Discover how changing global regulations affect wealth. Understand how private banks and other advisors work. Uncover challenges faced by the wealth management industry. Find out how to work with advisors and to manage costs while ensuring efficient and effective outcomes. Families at all levels of wealth are vulnerable to shifting economic climates, evolving regulatory issues, asset threats, and more. Any amount of wealth is enough to shatter a family, but deeply intentional planning based on thoughtful consideration is the key to keeping destructive forces at bay. **The Destructive Power of Family Wealth** provides expert guidance and a fresh perspective to help you maintain both family and wealth. For those in the wealth management industry and for other advisors to wealth-owning families, **The Destructive Power of Family Wealth** contains insight on the needs of today's wealth-owning families, ways in which the tools of wealth planning address those needs, and guidance on what it takes to be a successful trusted family advisor.

Don't Bring Home a White Boy Karyn Langhorne Folan, 2010-02-02. Folan encourages readers to look beyond common generalizations and stereotypes about race and gender in interracial relationships. In *Don't Bring Home a White Boy*, writer Karyn Langhorne Folan debunks the myths and common preconceptions about interracial relationships. Is a black woman who dates white men a traitor to her race? And is America's history of black oppression a factor? Drawing on real-life testimonials, she boldly tackles this difficult subject with warmth, humor, and understanding as she explores stereotypes of black female sexuality and white male perspectives on black female beauty. Folan goes beyond statistics and offers firsthand insights on her own interracial relationship and attempts to tap into a woman's desire to have all that they deserve instead of restricting themselves simply because they want a good black man. Frank, authoritative, and universally relevant, her message to women is to look beyond skin color, accept themselves for who they are, and seek a man who truly loves them regardless of race.
